

NATURAL LAW

Erik Lux

Zabudnite Na Vsetko Co Ste Sa Naucili

September 29, 2015

WHAT IS IT ALL ABOUT?

- Initiation into deep esoteric knowledge hidden from humanity for millenia.
- Aggregation of fragmented knowledge.
- Nature and Truth.
- This information is a tapestry. It is meant to be taken as a whole, in its entirety.

TRUTH

As the old saying goes in all mystery traditions: "There is nothing new under the sun." This means that Truth is singular and eternal. It has always been here and it will always be here. It is our perception that must be aligned with it.

Truth itself by its very nature is belligerent. Truth is actually at war with lie and deception. It is at war with mind control.

TEACHABILITY

An individual's teachability, or their ability to learn by way of being taught by someone else, is extremely dependent upon the open-mindedness or closed-mindedness of the individual being taught. Low teachability derives from arrogance and rigid scepticism, but also from naivete and gullibility. High teachability derives from a balance between healthy skepticism and an open-minded willingness to learn and change.

It means that you are able to hold a proposition (problem) in your mind without accepting it or rejecting it immediately. It means you consider the information with the open mind, okay, somewhat trustingly, but also somewhat sceptically. That is the mental state we want to be in during the duration of this seminar and therefore you will be in the best position to learn.

Human beings should consider with great care their sources for information. By refusing to present certain information, and by influencing people to dismiss certain information as unimportant or unnecessary to consider, many modern institutions seek to control human perception and therefore limit what human beings may come to understand. They are limiting what they are able to do, to change to create in the world.

Do not believe me, the worst thing you could do is to believe me, you have to work into it for yourself and the most important thing you need to do is personal introspection to really feel inside of yourself whether this information resonates with truth. Everybody has that intuitive capacity, that also has to be turned on and engaged and used.

MODERN ORGANIZED INSTITUTIONAL BODIES

If anybody is coming to the seminar with the perspective of modern organized institutional bodies, meaning political thought, political agendas, political organizations, religion, religious thought, religious organizations, I am talking about organized religion here. What I call scientism, not real science but science set up by institutional bodies to be rigidly sceptical belief systems that blind out everything that could possibly say anything to the contrary of preexisting beliefs. I call that scientism and of course the new age movement which you can group up with the religion, it is just another form. It is for those who do not fall into religious mindset, this is the alternative religion proposed for them, and they call it the New Age Movement.

MODERN ORGANIZED INSTITUTIONAL BODIES

All of these are boxes for consciousness, and this presentation is going to shatter all of these boxes. Because these are limitors of perception and thought. They try to place everything in the box and say nothing outside the box is suitable for human consumption so do not go there. And as the result they act as mind control influence. The other and the biggest limitor of human perception and the mind and ultimately of our behavior is money itself. You want to talk about the biggest religion, if these before are not enough for you, and powerful for you , this is the ultimate power in the world, the ultimate religion, the god of this world if you will. If you are in the mindset of discovering the reality from any of these perspectives, you will be surely very disappointed of what you are going to hear because the information here falls way outside of any of these institutional limitors for consciousness.

REQUIREMENTS

Requirement for creating change and the role of knowledge. Human beings say that they want certain conditions to be present for both themselves and their species as whole, such as happiness, health, peace, freedom, prosperity, etc. However specific requirements exist in order for human beings to obtain those conditions. If the requirements for those conditions are not met, those conditions do not just manifest automatically by magical means.

Most people say that they want these things but I do not think they are honest with themselves, they say that they want it but those are not automatic conditions, they just do not magically manifest, they are requirements to obtaining these conditions and people would not say they want these conditions if these conditions were already omnipresent. Right? They say that they want something because they do not have it at all or at least in fullness. When you say there are requirements, many will say, well I may not be willing to go there, I may not want to put so much effort and they believe that somehow they gonna magically get these things.

THE ROLE OF KNOWLEDGE

Since human beings, as a species, do not already have the things they say they want, it follows logically that the knowledge of the requirements to obtaining the things they say they want either must be absent or if present, that knowledge must be willfully being ignored. As long as these knowledge continues to remain unknown or ignored, the manifestation of the desired conditions will be impossible. Cannot happen. That is what we are going to talk about, what are these requirement, what is this knowledge.

THE OCCULT KNOWLEDGE

This knowledge is occulted. Occult knowledge means that this body of knowledge is actually hidden and held by the few. The word occult is derived from the latin adjective occultus, "hidden", which comes from the Latin verb occultare, "to hide; to conceal; to keep secret." From the latin noun oculus, "meaning eye", related to sight, vision.

What is the occult? It is the body of knowledge that has been hidden away for specific reason.

THE OCCULT KNOWLEDGE

The top of the pyramid represents knowledge and the bottom ignorance. The knowledge is held by the few. The higher you go into the pyramid the more knowledge you have, but the pyramid tapers, because at the top, very few people understand this information and have actually integrated it into themselves to the point where it becomes understanding. Down you have no knowledge, ignorant masses and up here you have people who are in the know, have knowledge about how this natural law works and are actually using it for certain reasons. Please keep in mind, during this text, if I use the word occult, all I am talking about is, the hidden knowledge, that is all what it means.

THE OCCULT KNOWLEDGE

What is this occulted body of knowledge, what does it comprise? In mystery traditions or occult schools, they talk about these as arcana, latin, “meaning knowledge”. There are two bodies of arcana. Lesser arcana, the knowledge about microcosm, small things, it does not mean it is less important, it means it deals with individual units of consciousness, the human psyche, the psyche of the individual. The second body is called the greater, the major arcana, it does not refer to it is as more important, it refers to macrocosm, very large laws of nature that govern the macrocosm. And what is described in the text actually falls into this major arcana. Universal laws are part of the greater arcana of the occult knowledge.

The occult knowledge constitutes both the knowledge of human consciousness and how it operates, and the knowledge of natural law, the unseen universal spiritual laws which govern the consequences of human behavior.

NATURAL LAW (ETYMOLOGY)

Natural is derived from egyptian and other middle eastern languages. The word nettere in egyptian, meaning spirrits. If you go into arabic or ancient arabic languages al as a suffix means all related to. When put together, all it means is all that is related to the spirits. All related to god actually. So this is the spiritual domain, the laws that are actually operating in the unseen realm. They manifest in the physical realm, because that is their operation, it starts in the spiritual domain and then it manifests in physical.

WHAT THESE LAWS DO?

They govern the consequences of behavior for intelligent species, beings that are capable of coming to their understanding. I delineate it from the animal kingdom. The animal kingdom is not held in the same standard as human kingdom when it comes to this information. Because I do not think you will sit down with your cat and explain natural law to it. So when people ask, why doesn't the animal kingdom hold account in the same way as the human beings do. It is because, surprise, surprise, we do not share the same level of consciousness. There is a difference between the levels of consciousness and abilities to comprehend information and to actually know how something works just like you are not going to explain physics to your dog anytime soon.

This body of knowledge has been called consequentialism by past researchers and teachers. It has been called karma, karmic law in the middle eastern or eastern traditions. In christian and western traditions, it has been called the moral law. Religionists have called it god's law.

WHY IS THIS KNOWLEDGE HIDDEN AWAY FROM PEOPLE

It is not commonly known. It is not the exoteric, it is not given to the masses, it is the esoteric, it is reserved for the few and there is the reason for that. It has been deliberately hidden away in order to create and maintain a power differential between those who hold that information and those who are ignorant of it.

WHY IS THIS KNOWLEDGE HIDDEN AWAY FROM PEOPLE

The knowledge of the natural law and its operations constitutes the most deeply occulted information on Earth, which the Powers that Be seek to keep hidden from the People of Earth at all costs, because its understanding would “level the playing field” and put an end to the currently entrenched Systems of Control. And they are doing this because we do not have this knowledge. And while we do not have this knowledge, do not expect the playfield to be leveled. Expect it to get worse.

WHY IS THIS KNOWLEDGE HIDDEN AWAY FROM PEOPLE

"The natural law is the thing that is why all the distraction are put to place to keep you from learning that. Endless trivilities, the nonsense you hear on the news, all the video games, all nonsense television, the sports, you know. It is all there to keep people from understanding this. I cannot get you to accept that or believe it, and I do not ask you to believe it. I am saying that is what they are trying to do from my perspective of years being inside occult traditions that are very very dark. I am telling you this it is what they do not want you to know. From my first hand experience."

.. Mark Passion was involved in the dark occult in the past.

NESCIENCE vs. IGNORANCE

The context of Not Knowing.

Nescience

From the latin verb nesciere: "to not know because knowledge was absent or unattainable." (ne - absent, science - to know)

This is the word practically sanitized from colloquial english and there is a reason for that too .. The important is that it is not someone's fault, there is no blame in nescience.

Ignorance From the latin word ignorare: "to not know even though necessary information is present, because that information has been willfully refused or disregarded."

Ignorance carries blame. This is another thing, people in New Age Movement often say this, nobody is to blame. And that goes to there is no cause for anything that is happening as you hear a lot in a New Age Circles. I very strongly put down these notions or I attempt to because there are causes and effects, there are people , who are responsible for what is happening. There is blame, blame exists. There are people who are culpable.

THE LOST MEANING OF IGNOR-ENCE

The meaning of the word ignorance is lost because of the way it is pronounced, please, start pronouncing it [igno:rens] then people will hear the word ignore in it and the connotation becomes clear. You are ignoring it. . . Because the truth is there and someone is trying to ignore it completely. Now that is inexcusable and there is a blame that is attached to it. So the question becomes: Do we have a nescience society or do we have an ignorant one. We are drowning in information. I think we are drowning in truth that is all around us, but people are ignoring it largely, not everyone, there is many who are very hungry for it and taking it as fast as they can. But the most of our population is ignorant about. And this constitutes this trans which people in community or truth movement refer to as, people sleep or are asleep. I like it to be called hypnosis, if you look at the origin of the word hypnosis, it means suppressed knowldege, it comes from greek, hypo means under as in hypoderma, under the skin, and nosis means knowledge, suppression of knowledge.

THE LOST MEANING OF IGNOR-ENCE

That is the state where majority of people are in. And that is done by themselves. We have to stop looking at it if there is a victim, victim relationship, this is a willfull choice, in the time of overwhelming information available at people's fingertips, the truth being ignored is not an option. It is a willfull decision that people make. And it is the decision that they should be held accountable to because of what is going on. They are ignoring it, they are allowing to go it in their name and they are not saying a thing about it, content to let evil run them up.

THE LOST MEANING OF IGNOR-ENCE

And then people will wonder, why are we losing freedom, why is freedom on the vain. Why is totalitarianism and tyranny rising up, why we see so much control and obsession with control in our society. Many of them will see this rising police state, injustice in society, restrictions on our inherent natural liberty, but here is the thing, many of them will not make the transition to grasping, they say yeah, this is what is happening to the Earth, it is turning to be a huge prison, every day every where and at the most rapid phase in America and they see this lock going on to the cage with the question that they never get to. They will never get to the question not even the answer. Why? They talk about the symptoms, they describe the prison, they describe every corner of the cage, accurately in many cases. They can tell you how it is working, they can tell you all the different aspects of the control system but they cannot tell you why it is actually going into place. Why is that happening? That is what this presentation answers, why we are losing freedom and it goes to the actual heart of that question.

MASTER KEY

So, what this presentation constitutes is a master key, that unlocks all the locks to all the doors on all the cages in the prison, if it is accepted. And once again, I won't tell you .., belief is required for that. Because the truth is always present it is always here. It is of the fact, will we perceive it as a present, acknowledge about its presence, stop ignoring it and then accept it into ourselves and then do something something about it.

Understanding is not the end. Taking in the knowledge and the understanding is the beginning. Action is required. The knowledge is required, understanding is required but then action is finally required above all if change is to be created. That is how the laws of attraction do really work. So will that people as a whole as a society accept that master key? I cannot answer that question. All I can do is try to pass it to their hands after I had taken that key and unlocked my personal prison, my personal cages and free my mind, all I can do is to bring people to see, here is how this key works. Here it is, here is the information that constitutes that key and here is how you can put it into work into your life, it is all I can do. I cannot make anybody take it.

PROBLEM SOLVING

- Recognize that there is a problem. Fear based denial of the problem must first be dealt with and conquered.
- Recognize that symptoms that are being displayed are merely effects of underlying causes. Therefore, instead of simply treating symptoms, make an accurate **DIAGNOSES** of the **CAUSES** of the problem. You can not treat symptoms and solve the problem, it is not possible, that is not how the problem solving works. You have to get to what caused the problem.
- Through the knowledge acquired via accurate diagnosis, take the required **ACTION** necessary to rectify the causal factors which led to the manifestation of the problem.
- Act on the knowledge you now have to solve the problem to make it right, so action is required.

RECOGNIZE THAT THERE IS A PROBLEM

Many people do not think we have a problem, they like this place, they like the world as it is. Which i do not comprehend, for me it is a living hell. And that is not because how my personal life is going. I am very content with my personal life, I have no self inflicted suffering in my personal life. I do not create problems for myself. My life goes on very well according to how I live it without hurting anybody else. The problem is other people, and that is another people, the new agers will not acknowledge and flip out and say there is a problem with someone else. Okey, there are problems with other people. and people would say, people in glass houses should not throw stone. My glass house has been taken long since long time ago because I went through all this personal introspective work. And I went deep into my subconscious, faced those problems and confirmed they existed and healed them and came out of the mindset that I was once in.

RECOGNIZE THAT THERE IS A PROBLEM

.. Mark Passio

" I can say, with all honesty, that I am not a part of this problem. Knowing consciously that I do not engage in the activities of today's world. But once, I was a part of this problem, a big part of the problem. What I had to do at some point was stopping pointing out that the problem lies elsewhere while I was still part of it. And then I have to point only at myself and say what do I need to change in my mind, in the heart and finally in the guts, in the courage. The change happens in mind, it happens in the heart but lastly it happens in the guts. We have to generate heart ,mind, guts. You have to care about what you know and then put it into action. Taking action is the most important step when it comes to creating a change. The point is I have to look at what I have to change about myself in my thoughts in my emotions and in my actions and change those things in myself, this is what the most people wanna run away from they wanna say , I want those things that I say I want to be present in my life but I do not want to do those things that require self change. I want it magically happen."

RECOGNIZE THAT THERE IS A PROBLEM

.. Mark Passio

"I can honestly say I do not see manifestation of myself in other people, but many others cannot because other people have not been through that process that I was, painful, painstaking work, that involves effort, hard effort. I am not telling people I am offering you the tonic, that you sip and magically you will be enlightened. Knowing what is going on in the world is a hard work, it involves destruction, it is a destructive process, it involves destruction of belief systems, it involves completely breaking down barriers that are in your head. Hardly anybody wants to do that work. People want to run a million miles away the opposite direction of this work. Anything but that, I take the grave instead of that, that is where the most people heads are at, you know ..

RECOGNIZE THAT THERE IS A PROBLEM

You have to acknowledge how bad it is. People see symptoms of the disease and they want to ignore it because I do not want to believe I am sick. I do not believe I have a problem. Then you are waiting waiting waiting and you do not get it diagnosed and it turns to a much bigger problem. Which is where we are at as a society for ignoring this information.

Denial symbolically is having your head in the sand like an ostrich. when you are in this position with your head in the sand, you are on your knees with your ass in the air. I often say, it is amazingly synchronistic that the human body was designed like that in order to put your head in the sand, you symbolically so to speak, you have to be on your knees and that is where the most of the society is in.

DIAGNOSIS

What does the word diagnosis mean?

From the greek preposition dia "through; by way of; by a method" and the Greek noun gnosis "knowledge."

The diagnosis means by the way of knowledge.

You are going to solve the problem by way of knowledge, if there is not knowledge you will not solve the problem that you have.

The new age community are lying to people whether through willfull deception or useless dups, they want people suppressed and non active, they want people in acceptance mode of everthing. Accept accept, accept and never rebel. Do not take action, just observe, watch you hear all these things in the new age movement. The reason why I bring it up is, when you use a word knowledge to some new agers, they almost take offence. Because of what the new age is becoming is a modern date varient, it is a new form of what is known as sollapsicism.

DIAGNOSIS

People do not want to hear, that the knowledge is required. because the attainment of real knowledge not sudo knowledge, requires work, it requires effort. it requires reading, it requires listening it requires watching and most of all it requires, what the people do not want to give up it requires time. That is the currency that people do not want to spend on things that they do not feel that they get immediate gratification from. that is why the immediate gratification is so stressed in our society by the control system. that is what keeps people in their ignorance. So the diagnosis means, if you want to get well you have to have the knowledge of the underlying causal factors that led to the creation of the symptoms. You have to find out what cause has put this into effect.

TRUTH vs. PERCEPTION

Because people have deeply mystified concept of what the truth is. what it means. they get into this really deep abstract distraction the mind of god, trying to get into quantum theory of everything. This is mystifying, we have to bring it into a simple understandable language language that anybody can comprehend and then really completely delineate that from perception of any given thing because the two are not the same. When people say, perception is the reality, nothing could be further from reality. perception is not reality it is just as it is written seeing through something like a lense or filter. I perceive things differently with the glasses. that is how human perception works, it is the lens, it is the filter, but what is there is the same thing. All that changes is how I perceive it.

TRUTH vs. PERCEPTION

Truth is objective meaning that it is not based on the perceptions of human beings (which is capable of wavering). Truth is simple that which is. It is that which has occurred in the past and that which is occurring in the present. The truth is not dependent on perceptions of human beings, that is a direct assault on human ego. Everybody wants to hear that my perceptions are accurate and important.

TRUTH vs. PERCEPTION

Why are my perceptions accurate? I went through this painful destructive process, and then starting from zero. Most people do not want to go through the process or are as hard as diamond, they are not willing, they are calcified. they have been so compressed in this hard state that they do not want to start.

TRUTH vs. PERCEPTION

I say that your perceptions are not what really matters. The truth is not based on how you perceive things. It is independent on how we perceive things. Human's perceptions are capable of wavering, they can waver slightly from the truth and they can waver wildly from the truth. What truth is that what does not waver, it does not move it is something which is. It does not matter, what anybody thinks about it, if anybody believes it, it does not matter if anybody knows it, it does not matter if anybody sees it, it does not matter if anybody wants to see it. It is there it has always been there it always gonna be there.

Nothing anybody does can change what has happened. Can anybody change what has occurred, in thinking of linear time, the past? Not one person here is capable of doing that, let me tell you something, not one being in manifested universe is capable of doing that because that which has already occurred is set in the record of the universe. Nothing can change the past (Watch the new movie time machine, the old one). This movie got crushed in reviews, whenever reviewers crush the movie and give it the worse ratings, go and see this film. I guarantee you, there is a very important allegorical concept you need to understand embedded in that film and that is why reviewers crush cause they do not want you to get any ideas. This movie got crushed in the theatres and I guarantee you it is the best movie to understand the concepts of the absolute impossibility of changing the past.

TRUTH vs. PERCEPTION

You know what can be altered, the future, and that is what this movie is about. You know where the alteration of the future begins? In the present moment. That is exactly right, that is the only place it begins. The demystified concept of truth is simply that which already exists. It is that which has happened in the past and is happening in the present moment. Truth does not exist in the future. When we get to the future, it will be the truth but not until. There is no such thing as truth in the future. The truth is that which has occurred in the past and which is occurring in the present and that which is and what has been. That is what I am talking about when I am talking about the truth, the events that have taken place in the past and are taking place in the present and guess what, that is the whole truth is. It does not need to be more complicated than that. If you want to put it more complicated, call it something else but truth.

CONSCIOUSNESS

Imagine this white line that does not waver is the truth. Take three individuals blue green red. Their ability to see what has occurred and what is occurring is what I refer to as consciousness. Consciousness is an ability to recognize patterns and meanings with respect to those patterns. Meaning you have an accurate understanding of things happening around you or you have an inaccurate understanding of things happening in and around you. If your consciousness is high, meaning it is a high frequency you have a higher ability to recognize these patterns, if your consciousness is low, you are a low frequency and you see the pattern less you are not gonna accurately perceive. I put it into a wave form in simple physics, a sine wave.

The distance between the crossing is called the wavelength. The longer the wavelength, the shorter the frequency. What that means is how frequently is it going to be intersecting the white line that is representing the truth. How frequently is it going to be aligned with this line which we are calling the truth.

This is a low frequency vibration, low wave. It would produce a low base tone. As we go up to the higher frequency, the wave length is shorter. It intersects the line much more frequently. The higher the frequency, the more aligned with truth we are. What would happen if this frequency became infinitely high? what would it become. It would be indistinguishable from the line. Someone would be aligned to which is. The higher the level of consciousness or the frequency, which is the perception of reality being accurate. The higher the frequency, the higher the perception of reality.

PERCEPTION NOT A REALITY

Perception is not reality, it is the filter we see reality through. What the human beings work is to do is to align their perceptions to reality which exists, which is truth. We need to set aside what we want the truth to be but to see what it is. What it is is all together different than we want it to be. Until you recognize what it is you are not even in the position to make accurate diagnosis what is going on and therefore create what we want to be.

Travis Walten (Book: Fire in the sky).

"I have come to realize that the biggest problem anywhere in the world is that people's perceptions of reality are compulsively filtered through the screening mesh of what they want, and do not want, to be true. "

We want things to be true, that does not make it so. That is not what makes truth the way that it is. What makes the truth what it is is what behaviors have been taken and what are the actual facts in the manifested world. that tells us how the things are. it does not matter how we want them to be, they may be completely different way than we want them to be and I would say that they are in the completely different way. But for most people, they kind believe that they are the arbiter of truth and that is the bad place to be. And that is a very low level of consciousness.

NEW AGE MOVEMENT AGENDA

The New Age Movement is the religion that is designed to suppress the masculine side of the personality which is actually the side which takes action and makes change. And that is also pushed by sacred feminine which is care and creativity or an compassion . Both need to be present. What New Age Religion wants to teach people is just accept everything the way it is, it does not matter how unjust it is no matter how bad conditions are no matter how much evil is taking place in our midsts, accept it!

SOLIPSISM (COARSING MIRACLES)

Solipsism (solus -alone, ipse -self).

The ideology that only one's own mind is sure to exist. Solipsists contend that knowledge of anything outside one's own mind is unsure, hence there is no such thing as objective truth, and nothing about the external world and it's workings can actually be know. A completely egoic ideology, no resemblance to truth in any way and the people who are solapsists are mentally ill and probably should be segregated from the society and institutionalized until they are made well.

When you do not understand where the words came from you do not really understand what they were really intended to mean. Regardless of any other connotation they have taken on in the modern world, the intended meaning, original, of the word is derived from its etymological derivation. You need to go to ancient languages, latin and greek roots, germanic arabic. You need to break down the words from their etymological origins than you understand the words and their real meaning. And I am telling you you do this and the top of your head will blow out by what you will find. What words we speak on daily basis actually mean and we have no idea what they mean. These people want to believe that this whole spiritual domain is such an illusion that nothing that takes place in it does matter, should be only watched and nothing can be done about it.

SATANISM

SATANISM is a religion. These are behaviors and thought patterns that should not be engaged in by the dark occultist themselves, by the magician if you will. You cannot not engage in these behaviours but we are to peddle them to other people. The agenda is to get them to engage in these behaviors.

- Stupidity.
- Pretentiousness.
- Solipsism.
- Self-deceit.
- Herd conformity.
- Lack of perspective.
- Forgetfulness of past orthodoxies.
- Counterproductive pride.
- Lack of Aesthetics.

The point is that SATANISM can be perceived as a world esoteric religion infiltrated almost in esoterics of every institutional religion on this planet. And it is all about people that give up life: That is what makes me comfortable, my ignorance and laziness.”

"The idea is we will know it all, we will know truth, so that we can control others and keep them dark down herd. Dark occultists will put the idea into the hands of usefull dups, the material to write books on new age bullshit. And we are going to propagate and peddle solapsism like you have never seen."

And when they say something they are doing it. I am serious they act on the level, on the same page, and for that I have respect for them as an enemy. I recognize they have the will they are not like the rest of humanity. they align they thoughts, their knowledge with their version of care, it is not like our emotional based care, but they care about what they are doing and then they act. And when they act they act in concert. they get it done. I am not saying I agree with any of their agenda, but I have respect for their unity, humanity is not united.

DEFINITION

- A statement of the one exact meaning of the word.
- An exact statement or description of the nature scope, or meaning something.
- The degree of distinctness or clarity of an object, image, or sound.

The more accurate our definitions for words or concepts, the better our clarity of meaning, and therefore, our understanding of those words or concepts will be.

De-finite literally means: "makes it finite, limiting through words what something means so we can be clear about what we are saying, hearing, seeing."

E.g., hd sets higher definitions of pictures.

Natural:

- Inherent: having a basis in Nature, Reality and Truth, not made or caused by humankind (was not made by man).
- Unseen, spiritual.

Law:

- an existing condition which is binding and immutable (cannot be changed).

Nature in Egyptians means spirit and all means all related to. All of nature is a spiritual domain. People believe that the spiritual domain is separate from the physical domain, this is the huge threat. If you think that spiritual domain is not where you are right now because you are in the physical domain, you are mistaken. If you believe that the spiritual domain is somewhere other than the physical domain you are also mistaken.

If you make emphasis on one or the other and say this takes precedence and this is not important, it is imbalance and it is not truth. If you say, matter does not matter, or this is just a big physical clockwork built randomly, both of these world views are inaccurate, not based on truth. They are in fact based on brain imbalance.

Law is:

- existing, it is present, it cannot be ignored, it is in operation.
- binding, it has an effect.

it does not matter if you believe it has an effect it does not matter if you understand it, it is in effect, that is another destruction process to human ego. It wants to hear, universe cares about you personally, it cares about John it cares about Mary .. individually as a being, you can go so far to believe that the creator of this universe cares about you . I am not denying it, what I am saying is the laws of the universe do not care about you. Laws have been created in this realm, that work, that work flawlessly, one hundred percent of the time, flawlessly.

A couple are in the picnic, a 50 yards away is a cliff which ends in rocks, they have take their child their kid, 2 year old daughter goes and ends at the edge of the cliff. Will the gravity care if she goes over the cliff, will gravity allow her to go over the cliff? Yes it will, gravity does not say this girl does not understand this law and she will die if she will go over the edge, she is innocent, she is nescient, not even ignorent.

Will that law still have an effect? You damm better believe it will have and so the natural law works the same way, it does not care if you do not know it, it does not care if you are nescient or ignorant, it is in effect, binding and immutable, nothing anyone can ever do can ever changes it because the man has not put it into effect, the creator did, and I do not care what do you think of it, as an impersonal force, or a man in a beard, or this remote control I do not really care what you do think it as. Personally, that is not of my bussiness. But you know what if you think of it that it is a man, that makes the "laws", then I have a big big problem about it. Because the man does not make these laws I am talking about.

The creator of this universe set these laws in a motion put them into an effect and they bind you, you and I are bound by these laws, whether we like it or not, whether we accept or not, whether we understand it or not. They are in effect and you are already creating the reality that we are experiencing based upon the interaction of these unseen laws. You have already been doing it. You can never be not doing it. That is an impossibility. You are always creating in cooperation and can never do otherwise as long as you exist in the physical domain.

Do you think that we can create something good, something that we say we want when we do not understand how these laws operate. You know what is going to be created? A mess, total chaos. Something you do not want, something which leads to enormous suffering which is where we are at. If on the other hand, if you have knowledge about how does these things work then you align behavior to them you gonna create the whole new different game.

NATURAL LAW IS A SCIENCE

This is not an untestable hypothesis. it is not a hypothesis. it is law. You can apply all scientific methodology to it, same thing, gather you information, hypothetize, observe, test the results, publish the results. This is a science, it is a science that constitutes knowledge, how the laws that are existent in operation and immutable in this universe work and about how we are creating what we experience in conjunction with this operating laws.

if you want to stop suffering and change human condition you have to know these laws, there is no way around that. Knowledge of these laws is required, and this is what the people in religious communities do not want to acknowledge. They do not want to acknowledge that the work is required.

SOUND BITE DEFINITION OF NATURAL LAW

Natural law is universal, non-man-made, binding and immutable conditions that govern the consequences of our behavior. Natural law is a body of universal spiritual laws which acts as the governing dynamics of consciousness. I would say that in universe it governs the behavior of all intelligent beings. Intelligent.

- Natural law is capable of being discovered understood and harmonized with.
- Religion wants people to believe, accept and do without question.

What this is saying is, Natural Law exists, you are bound by it, the best you can do is to understand its operation like you understand the gravity and therefore not go at the edge of two hundred high cliff that is surrounded by rocks. If you are intelligent and you understand how the law of gravity works you will not do that behavior. Just like when you are intnelligent and understand how Natural Law works you will do certain behaviors to create a present for your entire species. Unfortunately the humanity has not yet reached that level of consiousness yet, they are not at level of cocreative intelligence.

Natural Law has nothing to do with religion, it is not a belief system, it is a science, it is a discoverable operation that is already in an effect, that we can either understand and align our behaviour to or remain ignorant of and suffer as the result of that ignorance because it is already in effect.

Here belief is irrelevant, because natural law does not care about you, it is in effect whatever you know or you do not and people do not want to hear it, and I recognize it. I recognize I am not telling anybody anything that they want to hear. (wayn dyer -new presenter)

I do not care about fake money I care about real money, real one eye, the world money is actually one eye, which represents the spiritual enlightenment and it is placed over dollar bill. So I tell people, I am a poor man when it comes to fake money, but I am very rich when it comes to real stuff.

If I wanted to stay with someone's ego I would say your beliefs are very important, they shape your reality. Yes, they do shape your reality in a negative way if you do not align yourself with truth. And you want to stay attached to a belief system because you prefer to put it over what is real. I am also not telling people do not believe in yourself. I understand that Believe in yourself in your ability to understand this information. But I explain when it comes to a law that is existing in the universe, your belief does not matter, the universe does not care what those parents believed. Like a computer, you put this in, that is the way you program it, that is what has to come out, invariably, it is nothing personal. It is a impersonal force, which every singly mistery tradition and occult tradition which actally wanted to share this info with people has been telling people about and attempting to tell people about since time immemorial. No one wants to hear that.

Humanity greatest fear is that the truth is absolute. The ego has the hard time with any absolute truth. It loves relativism, it is another part of the big trap of where we are at. Relativistic ideas and especially when it comes to morality. Natural law does not require your belief to be in effect no more than gravity requires your belief to be in effect.

Human belief is completely irrelevant when it comes to the existence and operation of natural law, just as it is irrelevant in relation to any of the other laws of nature, as gravity, inertia, momentum, thermodynamics, or electromagnetism. Similar to such other phenomena of nature, the workings of natural law require no belief in order for them to be discovered and known.

.. Soren Kierkegaard

"There are two ways to be fooled. One is to believe what is not true (all organized religions, money, scientism, new age movement, government), the other is to refuse to accept what is true."

.. this is how humanity creates self-inflicting suffering in our species.

Consciousness is an intangible force, it is something that exists, but you cannot really see it. But there is a physiological expression for consciousness in a physical domain and the brain is one of them. Also the heart, it has even the bigger electromagnetical field. You have to understand the basic structure of the brain to understand the basic imbalances that go within it. These systems of imbalance also prevent the activation and action of the heart. Not only they prevent the real knowledge from manifesting within the being, they prevent the care, and they create apathy, they create inaction, laziness, cowardness.

Consciousness the ability of a being to recognize patterns and meaning with respect to events taking place, both within oneself (inner lesser realm) and in the realm in which the self exists and operates (bigger realm microcosm), and the events taking place is the truth, it is the ability to accurately perceive truth of what has happened and what is happening.

CONSCIOUSNESS AND BRAIN

How does consciousness express?

How can any other being know who you are?

thoughts (mind) speech is the form of thought

emotions (spirit)

actions (body)

thought is a natural body, everything in order to exist in the physical domain is a thought. Someone had to envision all the parts and put it together.

Your emotions are polarized component, it is a feminine aspect of consciousness, other people do not feel your emotions they can perceive them or sense them, you are the one that is feeling the emotions in your physiology, it is an internal expression, a feminine. It is the spirit in which we do something.

There is a marriage, the thoughts as a creative essence, which then blend or marry to emotions. We get to religious notions, where it is called the trinity, and I challenge anybody to look at any existing trinities in any of the religions. Every single religions tradition is always a father creator, a sacred feminine figure of some kind that the father then impregnates or inseminates and then from that offspring is born a male child always. Father is the mind, emotions are the sacred feminine essence, or the holy spirit, and then the child, the male child is the behavior, it is the active or the masculine principle which actually interacts with the physical world to change and hence that is the only way to save ourselves.

Religious people would not say that, but saving yourself will not come through the faith, yes I am, saving oneself can only come through action. Action will save humanity, faith will not do it. These religions are created by the control system. People do not understand that the exoteric christianity is created by the dark occult, of the ancient dark occult of mystery schools and they do not understand where this notion comes from because they have not studied astrotheology. I am not telling you that there is not any good concept in any religion, I say take all the good concepts and leave the nonsense. As one of the nonsense, that you need to believe something to be saved from the current human condition, You do not need to believe in a thing, you need to know truth.

Let me stay there, in their own scriptures, the exoteric christian scriptures, what is the one prescription that christ figure gives to the people when he is asked about freedom. He is only asked about freedom like once in the gospels. What will save us, what will make us free? Knowing the truth will make you free. I am not inventing words up here, I am telling you how it really is, I do not care whom it offends.

BASIC BRAIN STRUCTURE AND BEHAVIOR

Brain health plays a critical role in human behavior , so it is extremely important for human beings to become familiar with the brain's basic structure and function. Three main complexes comprise the human brain: the R-Complex (Reptilian Brain) which facilitates basic survival functions, the Limbic System (Mammalian Brain) which facilitates human emotion and the Neocortex (Human Brain) which facilitates higher thought functions and Consciousness.

BASIC BRAIN STRUCTURE AND BEHAVIOR

- R complex - fight or flight mode, survival, motor and respiration function , it is a stimulus reaction mechanism
- Limbic system - makes human emotion possible to be felt in the physiology by releasing neuropeptides in the blood stream
(Psychopaths cannot use it properly, either because of birth disorder or the conditions over ones life)
- Neocortex == tallen safalon == grey matter of the brain with the hemmisperes.
- It is where all electro magnetic activity takes place, all human function of thought, higher though function, logic, intuition, creativity.

BASIC BRAIN STRUCTURE AND BEHAVIOR

Left brain is linear series processor, splits things into smaller and puts them together, upper triangle blade. If it becomes chronically dominant, the right side is in balance not functioning on the appropriate level, the limbic brain starts to suffer. It is also going to shut down. A lot of left brain processing, the R complex of the brain is where the basic function is going to be commanded from. We are going to be living from the R complex. Stimulus - Response only mode. You have the controller, master mentality. selfishness and base desires, domination and control.

Right brain, makes possible human creativity, intuition, wholistic thought, big picture thinking, pattern recognition, compassion, nurturing care, downward triangle chalice. If this side of the brain is chronically dominant, you have slave. The R complex will shut down and it will not work properly. People freeze essentially and do not stand up and what happens essentially they are ruled by their emotions. Limbic system takes over - submissiveness and naivete.

BASIC BRAIN STRUCTURE AND BEHAVIOR

The idea is to keep balance.

The neocortex of the brain has two hemispheres. The left brain hemisphere largely facilitates logical and scientific thought, while the right brain hemisphere largely facilitates creativity and compassion. When both hemispheres are in balance, the Neocortex acts in its proper role as the executive command center of the human brain, and true Intelligence (Intellect + Creativity) is born.

In western society, intelligence = intellect, but it is not the same. True intelligence is wholistic understanding. Intella-gence (Intella - intellect, gence from latin, "genere; to generate or to create; the creative aspect of intelligence")

Most people are in one form of brain imbalance or the other .

The schism within the individual (mental schism).

what types of thinking will manifest when certain types of imbalance are present?

Masculine intellect (creating aspect is missing).

- Rigid skepticism.
- Scientism, the universe is a Grand Accident.
- Atheism, no spirit, no creator, therefore there is no underlying Intelligence in Nature.
- Solipsism, nothing can actually be known, there is no truth, no such thing as Spiritual/Moral/Natural Law.
- Moral relativism, the idea that there is no such thing as difference between right and wrong, they do not exist inherently in nature, we can just decide on what is right or what is wrong for ourselves and make it up randomly.

Masculine intellect (creating aspect is missing).

- Social darwinism, idea that a certain class of society can get to decide how everybody else would go because they are more intelligent, the survival of the socially most ruthless. Many people believe, that it is the natural order but nothing can be further from the truth. It is a psychopathic chaos, it has nothing to do with nature and it has nothing to do with order. these are the hallmarks of satanism.
- Eugenics, people that went so deep into this left brain imbalance, that they believe that they are god and they got to decide who can live and who can die, who gets to breed and who gets not to, and who gets to eat and who gets not to.
- Authoritarianism, man is the creator, man makes the law, man is dominant.

.. they are mind control propagators do their stuff to keep this in place.

RANDOMNESS

World view how do you view the world, how do you view yourself in it and how do you view others in it?

In case of chronic left brain dominance:

Randomness the world is the great cosmic accident, there is no creator and there is no underlying principle in nature. You give me one miracle and I tell you everything else (The Big Bang in this case). Nature is dead a dead mechanized machine. There is no conscience in nature. There is no such thing as spirit, no such thing as Natural Law. No objective truth and morality exist. Two thirds of people in the world are moral relativist, amazing. The existence has no purpose other than to continue its existence. Survival is the greatest aspiration. Right is something what is right for me. Wrong is something what is wrong for me. It does not matter what is actually moral. Subjective is that nothing has any purpose other than continue surviving == R complex dominance, left brain imbalance.

The ultimate purpose of being is to survive, self preservation, preservation of systems of beliefs, the number one tenant of satanism, by the way.

Imbalance of right brain (opposite manifestation).

- Naivete, believing anything you are told accepting information from official channels and official sources without actually checking in to them for yourself. God controls every event in Creation.
- Blind belief, you just believe the next religion that comes along, you believe and listen to what you want to hear. All occurrences are pre-ordained.
- People who trust government, free will is an illusion and does not exist.
- Religious extremism.

RIGHT BRAIN IMBALANCE

Imbalance of right brain (opposite manifestatiion).

- Solipsism, no such thing such truth. Since God controls everything, change is impossible.
- Unworthiness.
- Self-loathing, action is ultimately meaningless.
- Order-follower, it is not virtue, it ultimately leads to all evil in the world, accepting what somebody tells me to do, and not actually thinking for yourself whether the activity, the behaviour is moral or not.
- Willing slave, hallmarks of Religious Extremism and Slave- Think.

.. they are mind control propagators do their stuff to keep this in place.

Right brain imbalance. Helplessness, religiosity, dismissal of free will, leads to blind order followers and willing slaves who accept their masters, because god creates everything in creation, there is no free will. All occurrences are pre-ordained. Free will is an illusion and does not exist. Since god controls everything, change is impossible, action is ultimately meaningless.

IMBALANCES IN EXAMPLES

Steven Hawkin in one of his books (worship of scientism). He thinks that the universe is a great accident and machine, he is so deep in left brain imbalance that he developed a right brain imbalance and thinks that there is no such thing as free will. And people believe it and buy this moron's book.

"All mechanized machine, no consciousness, free will is as dead as god. there is not a drop of intelligence in this man, you might be the most intellectual person in the world but you have no wisdom at all, ZERO. He is not smart, he is dumb. "

The message of scientism and New Age Movement actually states that human beings are powerless to create change, everything is made to be this way by god. why take any action. Take no action, just observe and see how far it gets you in the bondage. Let's not euthemize it, it is a slave thing. When you want the world that propagates slavery, stay in one of these forms of brain imbalance.

BALANCE

Creating a balance, components of both world views which when come together ..
There is a deterministic component to reality and there is a random component to it as well, existing in cooperation and conjunction with each other:

- deterministic component = Natural Law
- randomness component = Free Will

Our ability to choose our behaviors is to choose to do certain things and not choose to do certain things. Every individual has it, does not matter, what position they are in , what situation, institution, who you have listened to so far, I do not care. Every single solitary being that is capable of thinking at all is gifted of Free Will. It is a gift of the creation itself.

.. Jim Keith: Mass control engineering of human consciousness.

Which is human nature, in essence, is it angelic or demonic?

I would say it is neither it is non of these things. it is not both it is neither. it is very difficult to explain to people, it is actually like asking what is the nature of a computer, a projector, a camera. The nature of computer is to compute information. The nature of projector is to project information, that is nature of projector. Is it angelic, demonic?

The nature of human beings is neither inherently good, nor inherently evil. Instead, we should consider the operating conditions, or the environment in which human beings exist, which influences behavior to a great extent, thus creating the current human condition.

Human condition is called human condition because it is that what is at present. To any condition for a thing to be in place, the thing has to be kept in a proper way. The operating condition will determine how it performs, what output it can put out into the world.

Human beings are like computers. We are programmable, that is the nature of a human being. People do not want to hear this. What is put into the person, determines what the output on the screen will be and this screen is called human life, in aggregate it will create a human condition.

HUMAN CONDITION

Human beings are programable, much like computers. Like a computer, if a human being has a bad "file-system format" (conditions during child's formative years), a bad, "operating system" (culture), and bad "software programs" (erroneous, rigid and dogmatic beliefs), their "output" (behaviour) onto the "screen" (life) will also be bad, and will contribute to deteriorating conditions on a mass scale. Like a computer, the behaviour of a human being will largely depend upon its programming (the quality of the information put into it, which enables it to process and create efficiently).

Garbage in : garbage out (chaos).

Quality in : quality out (efficiently, not chaotically. in order).

The problem with truth is that first, it will piss you off. However, if you are willing to accept that which is, it sets you free.

How is our reality built?

Prerequisites are:

- Understanding how natural law functions.
- Knowledge is what is required and that makes many people upset. Understanding the requirements to make certain changes.

Manifested Reality, the quality of the condition which manifests in any society is based upon the aggregate quality of human behavior within that society (only in the aggregate we are creating the output on the screen).

Human Behavior, each individual 's behaviour is based upon the quality of their decision making processes which , in turn, are based upon the quality of their available information (what you do with what you understand).

Decision making processes take place in the human mind and are chosen by each individual based upon available information. If information is held back, it is occulted or even if it is just swayed from taking in, individuals will never get to this step.

Available information constitutes a potential knowledge, that may be gathered, processed , understood and acted upon by individual (grammar stage, input stage).

Generated Result (Order or Chaos?).

Wisdom (or lack thereof).

Understanding (or lack thereof).

Knowledge (or lack thereof).

People would not think of Wisdom as a behavior, as an action, they think of it as something they know. NO wrong, wisdom is not knowledge or understanding, wisdom is action. It is knowledge and understanding that has been applied. To use computer analogy, application is the program in operating system on the hardware platform!

When the action is done properly (morality and ethics in mind) it is wisdom, when it is done without that, it is chaos. Based on these processes something is created in manifested reality.

This is how our reality is actually created, the conditions that we are actually experiencing as daily events of our life is a simple three stage process. The order or chaos.

This is called Trivium.

- In ancient traditions: Knowledge -> Understanding -> Action -> Life
- Later it was called: Grammar -> Logic -> Rhetoric -> Life
- In computer analogy: Input -> Processing -> Output -> Life

Forgetting TRIVIUM is one of essential reasons for the situation we are currently experiencing. That is why it was removed from public schooling. This part of knowledge has been completely obliterated from human's consciousness.

It is also called Truth discovery technology. When you google it, trivium, you get a rock band, most people have never heard the word.

Julius Caesar to one of his centurions: "How dare you teach a slave our method of learning, they would not be a slave anymore, they would be in uprising if they knew what we knew."

PRINCIPLES

From the latin noun principia, "first, foremost, leading, chief, most necessary." Principles are:

- That which matters most.
- The first things that have to be understood.
- Our society does not put principles first, it puts trivialities first and we are not even society that cares about principles.

Most people say family is first. Familiar connection does not matter as much as principles. Otherwise those relationships are meaningless they have no real value. Principles have to come first before you can build a relationship with another sentient being.

PRINCIPLES UNDERLYING NATURAL LAW

Natural law is expressed through seven basic underlying principles, plus the 8th principle (the lost principle) which binds the other seven together. These principles constitute a Master Key through which Universal Wisdom (including the Knowledge of the Requirements for obtaining (what we desire) is unveiled or de-occulted (getting things out of hiding).

In the hermetic traditions, in ancient Egypt = the land of Chem, it is where actual Khemisian traditions took place. The name Egypt is just bastardisation of Egyptian capital, the city of Memphis.

Khem means "black or dark" and Alchemie, "from black land; out of darkness this knowledge comes and brings light". However, there is light side and dark side to this traditions as well.

Natural law == Hermetic principles. Hermis Hermes Trismegistos was considered to be a messenger of the gods, in the ancient Egyptian and Khemitian traditions. Natural law is:

- hermetically sealed.
- binding principles that are immutable.
- laws in operation in effect that cannot be changed.

The principle of mentalism, correspondence, vibration, polarity, rhythm, cause and effect, gender.

MENTALISM

The all is mind. The universe is mental. Thoughts lead to the manifestation of things and events. Thoughts create our state of existence and the quality of our experience here on Earth. Therefore, be responsible for everything you create by being responsible for everything that you think.

n

Everything that happens has to be the result of the mental state that preceded it. People behave like they do because they have certain belief systems encoded in their mind, their thoughts and their emotions are driving their actions. If you want to change reality you have to change the thoughts and emotions, you have to change the way you think.

That which is Above is like that which is Below. That which is Below is like to that which is Above. The Macrocosm (the very large, the totality) and the Microcosm (the very small, the individual units which comprise the whole) are reflections of each other. The Universe is holographic. It is self-similar across all scales.

Macrocosm are the laws that govern creation.
microcosm are the individuate units that comprise the whole.

UNIVERSE AS HOLOGRAM

Hologram is an image, you pass a laser to it and it projects a 3D image. But the principle it is pronounced as whole, wholistic image is because when I take it and cut it into four pieces, you do not have a quarter of an image. You got four whole images that only lose resolution by a quarter. That is like reality we are living in. So universe is inside the individual and the entire universe is like individual. To know the individual help us learn the macrocosmic laws. Similarly, the macrocosmic laws will help us learn how the individual functions, these two things cannot be separated from each other. And this is what I am talking about, how the macrocosmic world works the natural law and how the microcosmic world works which is individuated consciousness.

Our reality is a fractal. These are self similar, mathematically generated patterns. We can see it through Fibonacci sequence. Structure of the atom similar to the structure of the solar system, which is similar to the structure of galaxy. You keep zooming out you keep seeing the same pattern repeatedly.

Universe is self similar across all scales of its existence.

Nothing rests. Everything moves. Everything vibrates. At the most fundamental level, the Universe and everything which comprises it is pure vibratory energy manifesting itself in different ways. The Universe has no "solidity" as such Matter is merely in a state of vibration. Death in this sense is an illusion because the true death would be cessation of all motion and energy.

This universe is a spiritual construct for experience to be gained. To have an experience and learn and grow in consciousness. Whole universe is spiritual having an experience in solidity.

POLARITY

Everything is dual. Everything has poles. Everything has its pair of opposites. Opposites are identical in nature but different in degree. At the place, fulcrum, where extremes meet, all paradoxes may be reconciled.

Are hot and cold opposites or can we simply look at them as the presense or absense of heat energy? Energy or lack thereof?

Are knowledge and ignorance the same thing. Yes they are. Because truth is always present, it is only the matter if it is taken in and processed or whether it is refused to be taken in and not processed.

Extremes can meet and blend and play with each other. At the base level, everything is a pure consciousness, however, at this level, there are things that are important to understand, and it matters to separate them and rectify. At this realm, we have to have feet on the ground.

Everything flows, out and in. Everything has its tides. All things rise and fall. The pendulum-swing manifests in everything. The measure of the swing to the right is the measure of the swing to the left. The rhythm compensates.

Many people say that it is just the way the tendency is moving us. These principles can be overcome by the higher level of consciousness. It is like genetics. Modern biologist say that consciousness plays into it. if the gene gets activated or not. It is just a tendency, you can still go where you want to go, but you just have to exert more effort. It does not mean that nothing can be done about it. More will is required to apply in this time. However we do not live in this time. It is known as the age of calliuga or age of destruction.

CAUSE AND EFFECT

Every cause has its Effect. Every effect has its Cause. Everything happens according to Law. Chance is but a name for Law not recognized. There are many planes of causation but nothing escapes the Law.

Is there a free will? Yes there is.

Is there a free will to ignore the law without the consequence. NO there is not.

Free will is operating within boundary conditions that I am referring to as Natural Law. It is a series of laws. Boundary conditions cannot be exceeded, you cannot break the law without negative consequence. CAUSE and EFFECT is the knowledge of how the consequences are generated by our free will within the boundaries of natural law.

CAUSE AND EFFECT

Will the effect happen immediately ? NO.

There is a time lag. You set the cause in motion, the Universe is going to intelligently bring to you through the rearrangement of all the dynamics it needs to rearrange the effect of what you generated by setting this cause in motion and there is a time gap between the cause going in the place and effect hitting you. This is because the pattern recognition of cause and effect is more difficult. Because it is separated by a time lag, by what we perceive as linear time.

If you do a wrong to somebody and immediately you would be stung by a wasp every single time you did a wrong to somebody. It showed up and bit you immediately within the two seconds after hurting to somebody, lying to somebody, stealing from somebody, would you start to connect the stinging to the wrongs you did? I think the most people would see the pattern but since that does not happen, it is very difficult for people to see the connection. And moreover, it does not happen in one to one ratio it is more complicated. Karmic consequence is more complicated. What is happening what all of us are experiencing is in the aggregate, the wrongs that the human species is performing on the daily basis which we do not attempt to rectify and stop through our inaction just let run the evil unchecked.

.. Merovingian character (Matrix film allegory).

"You are coming to me to be free from the matrix without understanding why you are in this position, the causal factors that have led to the current condition that is in place, therefore, you are coming to me with no power to effect the change, you are powerless, so why should I help you? You are powerless because you lack knowledge what set the events into motion the question why is the only source of power, without that you are powerless."

And this is a villain, the words of truth come from enemy. it is a big technique used in Hollywood. And there is a twist, he says, "Free will is an illusion." .. that is where dark occultists step in. Morpheus comes to him and says, "everything starts with a choice," and he is correct. Our choices set that causality in the motion before it becomes an effect.

PLANE OF EFFECTS (physical manifested reality)

This is where manifested realities have formed due to their underlying causes. The plane of effects constitutes that which has already occurred. As such, no power to affect change lies here, because that which has already occurred cannot un-occur, it has become that which is (truth). Human consciousness seems to be trapped upon the plane of effects, meaning that humanity, as a whole remains ignorant of the underlying causes which they themselves set into motion and which lead to the self-inflicting suffering in their lives.

There is a political solution to this, just to vote right government, There is a monetary solution, we just need to set a right monetary policy, or scientific solutions and advancement and they all think that it could be done while the slavery is still in place. Again good luck with that. You are rearranging deck chairs on the Titanic while it sinks, you are not creating any change because underlying causes are not changed and the underlying causes are how we think, how we feel and how we behave and no one wants to look at that.

PLANE OF CAUSALITY (the mental world)

This is where causes are set into motion prior to manifesting as formed realities. This plane of Causality constitutes the causal factors (the why question) which underlie and precede all manifested things and events. All power to affect change lies on this plane. Human consciousness must "move" from the Plane of Effects to the plane of causality in order for human beings to understand the causal factors of the conditions which they are collectively manifesting in their lives. Only then will Humanity be able to co-create their shared reality on a conscious level rather than an unconscious one.

Gender is in everything, everything has its masculine and feminine principles. Gender manifests on all planes of existence.

Mental gender is the state of coexistence between the masculine and feminine aspects of the human mind. Our left brain hemisphere largely facilitates the Masculine aspect of the mind, or Intellect (logic, analytical, and linear thought processes), while the Right brain hemisphere largely facilitates the feminine aspect, or Intuition (creative, compassionate, and holistic thought processes)

THE LOST PRINCIPLE

The lost principle of Natural Law which binds all principles together, an encapsulating principle, a container, in which other principles are contained in, seven circles, seven circles encapsulated in one. Eight circle is outside, it is called the seed of life.

What happens from seed?

it generates something, it creates something. it has outer shell, intact, which contains all the creative material, generative principle. The 8th principle is something that has to be present to create change. The generative principle, the principle that governs creation, most people will say it is love, but it is not.

CARE

It is CARE!

This is different than compassion. it is a different concept as compassion or love.

CARE is what you are giving attention and helping to grow. What you are focusing on, it is generating and growing. It does not mean that you have to ignore the negative, because you are only fuelling the negative when you ignore it, ensuring that it will grow much faster.

Care, this is what you are giving energy on, to put your attention on, to manifest in the world, that what generates our experience in aggregate. Most people do not care what is happening that is why it is impossible for us to change the things that we say we want.

Heart-mind-guts or care-knowledge-action unified, unity consciousness, no contradiction among them!

Care, the lost principle, is the dynamic care. What we care about on a day to day basis acts as the driving force for our thoughts and actions. Therefore, care can be seen as the ultimate generator of the quality of our experience. This principle has been often been referred to as the generative principle. The word generative is derived from the Latin verb "genere", which means create.

Liken the hearth is a pump in the body, it is the generator, it provides energy. The life force is in the blood, and enables us to sustain life. Heart generates the experience, it creates what we care about and how we behave.

In high freemasonry, among compasses and squares is the symbol g, that is what g stands for. lower levels, g - geometry, god.
at higher levels, gnosis knowledge.
at higher above 32 degree, genesis, generative principle.

This principle is lost because people do not care. What we care enough to put our will behind is ultimately what gets created in our world. The world is the way it is because most people do not care enough (even if they say they want things to be different) to change it through their actions.

TWO SPIRITUAL CURRENCIES

There are two spiritual currencies, time and attention. This analogy can be seen very readily in the sayings. Spending time and paying attention. Whatever information or endeavors we put our time and attention toward, we end up getting something in return for that investment. This return could come in the form of knowledge, understanding, skills, expertise, and empowerment, if we invest our spiritual currencies wisely. This is what real money (money is all about). Instead of fake federal nonsense that is not worth the paper it is printed upon. Only keep thinking that that has value.

People say gold is money. What intrinsic value does gold have? People make deal with it since in memorial. Does it make it intrinsic? It is like saying why this projector is having an intrinsic value. And you say it is because I find it valuable. No it is valuable because it is projecting image and if I want to get this task done, I use the projector. It is what I use it for this task. Is that why you use gold as a medium of exchange? Can you build a clothing out of it? Can you build house of it? Can you have weapons, can you build a shelter of it (if you have a lot of it). Okay, in technological society is for computers, but where does this intrinsic idea of gold come from? People would say it is used as medium of exchange. money is not a medium of exchange. Money is the limiter of the energy in the system. see people think of money as a currency, even the name is a mind control technique, because it is supposed to be about, it is the current in the energy system, this is the current, it is the amparage. No it is not, it is not the capacitance either, it is not the store, that is another thing the people will tell you, it is all fake, it is not the store either, you know what it is, it is a resistance in the system, it is the resistance to change in the system, because as long as this modality of slavery called money exists, it will be extraordinarily difficult to create a real lasting change. so again I piss of everybody. Religions have to go, scientism have to go, money has to go. All of it has to go. it is all religion and the word religion means to hold one back, to tie them and keep them where they are at.

TWO SPIRITUAL CURRENCIES

The result of two well-spent spiritual currencies is true spiritual vision. That is why most people do not have a lot of money they got nothing to pay for it with.

Therefore, we should seek to improve the quality of our attention by placing it upon information that is capable of improving both ourselves and the human condition as a whole. Such an effort would also constitute a valuable investment of our time. We should ask ourselves "What am i spending my time on? What am I paying attention to? And most importantly what kind of quality am I getting in return for these investments of this spiritual currencies?

TWO SPIRITUAL CURRENCIES

Sitting behind the hypnosis box, suppression of knowledge. Hypnosis is suppression of knowledge or suppression of spirit.

You got to read to gather knowledge. Libere means a free being not a slave; liberty; freedom. Libere means also in different context a book. Does this tell us something? The latin word for book also means free. You can be free if you read the right books. And the word is the library now, we have reunited all parts of the big library that were casted to the four corners of the world. Mystery traditions are available at your fingertips now which have not been the case anytime in the history and what we are doing? We are playing farmwill in facebook.

LAWS OF CAUSE AND EFFECT

- Effect invariably follows cause.
- For every action there exists an equal and opposing reaction.

LAW OF ATTRACTION

- The energy you emit is the energy you attract.
- Energy flows where attention goes.
- As you think, you feel and act so you shall be

KARMA or MORAL LAW

- You reap what you sow."

GOLDEN RULE

- Do unto others as you would have done to yourself
- In apophetic variant negative, it is: Do not do to others as you would prefer not to have done unto you.

NATURAL LAW EXPRESSIONS

The recognizable workings of Natural Law in human life take place through five basic expressions. Each of these five expressions have a positive and a negative aspect, giving us a total of ten overall Natural Law Expressions.

It is just terminology or jargon for unseen concepts of reality in nature.

NATURAL LAW EXPRESSIONS

Expression	Positive	Negative
GENERATIVE POLARITY (What We Use To Create)	LOVE (Consciousness)	FEAR (Unconsciousness)
INITIATING EXPRESSION (How It Starts)	KNOWLEDGE (Acceptance of Truth)	IGNORANCE (Refusal of Truth)
INTERNAL EXPRESSION (What Happens Inside Us)	SOVEREIGNTY (Internal Monarchy)	CONFUSION (Internal Anarchy)
EXTERNAL EXPRESSION (What Happens In Society)	FREEDOM (External Anarchy)	CONTROL (External Monarchy)
MANIFESTATION (The Result We Create)	ORDER (Manifested Good)	CHAOS (Manifested Evil)

You cannot cross the area of these charts. the expression are unilateral. they cannot be skipped either. This is how laws apply in creation, this is not belief system, this is not my information, this is eternal truth that exists and has nothing to do with human beings.

GENERATIVE POLARITY

- LOVE (Consciousness). The positive aspect of the generative polarity is love. In regard to Natural Law, love should be seen as the expansion force for consciousness. Love is the force which helps us to become open to truth and expand our awareness.
- FEAR (Unconsciousness). The negative aspect of the generative polarity is fear. Fear is the contractive force for consciousness. Fear is the force which influences us to become closed to truth, and the force which ultimately shuts down our awareness. Fearful of responsibility that comes with knowledge but mostly to act on that knowledge.

In this context LOVE is not meant to be familial love or relationship love or any hollywood variant of love.

This is all the same thing but the opposite in degree. This is consciousness and this is the lack of which is why it is the same expression

INITIATING EXPRESSION

- **KNOWLEDGE** (Acceptance of truth). The positive aspect of the initiating expression is knowledge, or the acceptance of truth. Knowledge positively influences the quality of our lives because it positively influences our decision making processes in every area of our lives.
- **IGNORANCE** (Refusal of truth). The negative aspect of the initiating expression is ignorance, it is the refusal of truth. Ignorance negatively influences the quality of our lives because it negatively influences our decision-making processes in every area of our lives.

One of the biggest issues for humanity is fear of responsibility that comes with knowledge but mostly fear to act on that knowledge. To get from current condition of human psyche you have got to have knowledge how it works. Knowledge is the key. it is the answer.

It is important to remember that ignorance should be distinguished from Nescience. Nescience is not knowing because necessary information is not present or unobtainable. Ignorance, on the other hand means not knowing even though necessary information is present, because the information has been willfully refused or disregarded.

INITIATING EXPRESSION

The technique is to provide endless entertainment to navigate people into wrong directions and away from truth, and say there is nothing to this stuff, it is just an old crasy religion, that you do not need to understand.

.. Thomas Jefferson

"If a nation expects to be ignorant and free, in a state of civilization, it expects what never was and never will be. Freedom and ignorance are antithesis of each other and cannot coexist simalteniously." That is impossibility in Natural Law.

.. Samuel adams

"No people will tamely surrender their liberties, nor can any be easily subdued, when knowledge is diffused and virtue is preserved. On the contrary, when people are universally ignorant, they will sink under their own weight without the aid of foreign invaders."

.. Socrates

"The only good is knowledge and the only evil is ignorance"

.. Mark Passio

"Willful ignorance in the presence of knowledge is a measure of a bad person."

I do know what is going on in the society and in the world and I do not want to do anything about it because I do not care I am only interested in my bussiness. That is called a bad person and I do not want to do anything with such people in my life. I try to surround myself with good people who care and cocreate wisely. Because you do not care, that makes you a bad person, yeah they are bad people among us.

.. Internet forum

"Ignorance is the most cause of all evil. Since only knowledge eradicates ignorance, it is our duty and moral obligation to educate ourselves, as well as the masses around us."

"I do not serve people I serve truth."

INTERNAL EXPRESSION

- SOVEREIGNTY (Internal monarchy). The positive aspect of the internal expression is sovereignty, or what I call internal monarchy (one ruler within). As a state of consciousness, sovereignty means that one has unified the three aspects of their consciousness, such that there is no contradiction in one's thoughts, emotions and actions.
- CONFUSION (Internal anarchy). The negative aspect of the internal expression is confusion, or what I call internal anarchy (no ruler within). Confusion is the state of mind in which the being is ruled by fear and ignorance. Confusion could be seen as internal opposition, or being torn apart from within, such that one's thoughts, emotions and actions are in the perpetual contradiction to each other.

Sovereign

A sovereign is a monarch (mon-, "one", archon: "ruler"), a Single ruler who rules only the kingdom of self. Sovereignty is a state in which one controls one's own thoughts, emotions, and actions, and by bringing them into Unity / Non contradiction / Non-duality, attains mastery of one's own consciousness == NOT A SLAVE. Self-control == Self-mastery == Self-ownership == Self-love.

Without Self-love there is an absence of Self-ownership. And it creates a big contradiction within ourselves: "I believe I am this businessman, this banker, this lawyer, this programmer and that is my identity."

The word sovereign is derived from the latin adverb super "above" (no v in classical latin) and the latin noun regnum "rulership; control" Regex is a king. Regnum his reign. Rulership is externally imposed control by imposing my will over your will through coercion. Thus, sovereign means "one who is above the rulership or control of another". Sovereign means not a subject or a slave.

There is no such thing, there has never been and never will be any such thing as legitimacy to slavery, that has never existed. Slavery is illegitimate concept. The condition of slavery has been imposed on people, but it has never been legitimate

Study on people asking if they were sovereigns: 11

EXTERNAL EXPRESSION

- FREEDOM (external anarchy). The positive aspect of the external expression is freedom, or what I call external anarchy (no external ruler). True freedom for all should be seen as the goal of spiritual development.
- CONTROL (external monarchy). The negative aspect of the external expression is control, what I call external monarchy (one external ruler). Control is the pathway to all forms of Evil and destruction. it results when society lives in direct opposition to Natural Law.

The state of freedom can only manifest as a result of human society's adherence to Natural Law. Anarchy is the absence of slavery. If on the other hand, someone outside of your own being is trying to control you and own you, that is Control, Slavery.

MANIFESTATION (top block in trivium)

- ORDER (manifested good, all the thing we say we want in cooperative spiritual anarchy). The positive manifestation is order, or manifested goodness. Order represents everything we say we want. Order results only when there is a balance or justice, which can only be present when truth has been accepted and our behaviour has been brought into harmony with Natural Law.
- CHAOS (manifested evil). The negative manifestation is chaos, or manifested evil. Chaos is the exact opposite of what we say we want. Chaos results when there is imbalance and injustice which results whenever there is ignorance of truth and behaviour which is in the direct opposition to Natural Law.

NATURAL LAW EXPRESSIONS

Expression	Positive	Negative
GENERATIVE POLARITY (What We Use To Create)	LOVE (Consciousness)	FEAR (Unconsciousness)
INITIATING EXPRESSION (How It Starts)	KNOWLEDGE (Acceptance of Truth)	IGNORANCE (Refusal of Truth)
INTERNAL EXPRESSION (What Happens Inside Us)	SOVEREIGNTY (Internal Monarchy)	CONFUSION (Internal Anarchy)
EXTERNAL EXPRESSION (What Happens In Society)	FREEDOM (External Anarchy)	CONTROL (External Monarchy)
MANIFESTATION (The Result We Create)	ORDER (Manifested Good)	CHAOS (Manifested Evil)

You cannot cross the area of these charts. the expression are unilateral. they cannot be skipped either. This is how laws apply in creation, this is not belief system, this is not my information, this is eternal truth that exists and has nothing to do with human beings.

CURRENTLY MANIFESTED REALITY

Self preservation is the highest law, survival is what matters, but that is animal not human by nature. Natural Law does not work the same for people as for animals because animals do not have the same capacity for conscioiusness as we do.

Social darwinism is psychopathic chaos, mental illness of mind, and all that people in this mindset can create is chaos, they are bent on hell and destruction, they have to have our complicity and cooperation, our energy is delegated to them through our mindset made by them in order to rule our species.

It is about living in alignment or opposition to Natural Law. New Age Movement goes hand in hand with religious traditions, they want to externalize your power, they want you to externalize everything. I am not saying if you want to pattern Budha or Jesus do it, I have not problem with it. Understand the spiritual teaching and apply this code. But once you externalize your power you are accepting your chains and say you have no power.

If you are waiting for external saviour you will be waiting in your chains forever. The knowledge of truth is that what Christ figure himself proclaimed would be the pathway to true freedom. Religion is trying to put emphasis off self knowledge. that is the point when they own you.

Until you take the light (the knowledge of truth), you will never dispel the darkness. Right and wrong do not exist as a constructs in human mind, they are in nature they are antithesis of each other. If you believe there is no real difference between right and wrong and you do not believe that these are inherently in nature, you are accepting Satanism and their belief system that comes directly from dark Occultism.

Self preservation is the highest tenant. The concept of moral relativism is a satanic belief, second tenant. There is no objective difference between right or wrong and I get to make that up based on my preferences.

Social Darwinism is the extension of macro biological Darwinian theory, oligarchy gets to direct the herd because they know better, their intellect gives them the right to do so.

The forth tenant is the eugenics, since we they ultimately the gods and they decide real and unreal and right and wrong and they give up this perception to the rest of the herd they are god here, and therefore they got to decide who gets to live and die. They are propagating these tenants whenever possible in all forms of society. You know how many people believe this, the whole lot, so many people are satanists and they do not even know they are satanists. Hundreds of millions if not billions are in that mindset and do not even understand what it is they think you have to dress like one or have things on your walls. They are owners of banks, hospitals, schools ..

RIGHT vs. WRONG

It is not right versus left, it is right versus wrong.

A deep understanding of Morality, Principles concerning the distinction between Right and Wrong behaviour, lies at the very heart of Natural Law.

Left democrates and Right republicans is a distraction and false paradigm, most people will be horrified of what is the difference between Right or Wrong. Do you understand the actual morality is when you have a common sense.

It is not what I think, it is what is inherently true in nature. And do not even take that personally, because it is not meant to be personal that you are not in this state of awerness , many people are not there. We are not special and it is not a personal attack.

RIGHT vs. WRONG

RIGHT	WRONG
CORRECT (Based in Truth)	FALSE (Not based in truth)
MORAL (In Harmony with Natural Law)	IMMORAL (In Opposition to Natural Law)
Action based in it do not result in harm to other sentient beings	Actions based in it result in harm to other sentient beings

WHAT IS RIGHT

5+5 is ? 10. It is right it is correct.

Was stealing right? It is not right it is incorrect.

Right represents two different concepts. Right means correct and also moral. There is a reason because correct also means moral. if it is true then it is correct and it is moral. The more you are following something that is false, the more immoral you are.

What is a right meaning what you have a right to do? It is no different to what I have right to do. What I am telling you is that every single sentient being on this planet has the same rights, not one person has one more nor one less right than other human being on this planet. To think otherwise, it is a fallacy, it is a deception, a lie, immoral, it is incorrect, it is not based in truth.

Rights are universal and exact same for every sentient being!

A right that we have to an act, enact, to take is an action that if you take it it will not cause the harm to any other sentient being. So Right and Wrong are actions and many people do not want to hear this. If you do not know the definition, you certainly do not know how to choose between right or wrong behavior.

KNOWING RIGHTS

Rights are most easily understood when they are considered through apophatic inquiry, this process helps us to understand what a right actually is by understanding which actions are not rights because they cause harm to others.

.. what it essentially is, it is a filtration process, it is a process in the middle of trivium, going through inconsistencies and saying here is the behaviour that is right and here is the behavior that is wrong. It is a negative, destructive process.

Apophatic inquiry

from the greek "to say no,"

is a method of logical reasoning employed when given a limited set of possibilities in order to arrive at knowledge by way of the exclusion of known negatives.

Describing what something is by explaining what it is not.

Affirmation through negation == Truth discovery process

We are going to do apophysis according to right or wrong. What are ways what are going to cause harm to other sentient beings. We are listing boundary conditions for breaking of Natural Law. Because such condition is a cause to the effect of harm to another sentient being.

NATURAL LAW TRANSGRESSIONS (SINS)

- Murder / Assault.
 - Rape.
 - Theft.
 - Trespass.
 - Coersion.
 - Lying.

WRONG DOINGS

NATURAL LAW TRANSGRESSIONS (SINS)

- Murder / Assault. taking somebody's life. Occasionally to defend one self, the killing might be necessary but murder is always immoral and wrong. The 5th commandment in hebrew "lo tirsach" do not murder. It means, do not take life without any right to take it, meaning that you initiated the violence, when you have absolutely no right to take that action. Assault is a direct physical attack without right to do physical harm. However, the right to defend oneself through physical defense exists.
- Rape. You are coarsing another human being and making them sexually associate when whom they do not want to and it is always wrong.
- Theft. Taking the property that does not belong to you. Someone else got their property without hurting anybody, as long as their are using it, they are responsible for it you do not have the right just to take what does not belong to you. No one has Right to take my computer. It would be Theft of someone else's property and that is the problem, we do not understand property as we get to rights, all rights are property rights.

WRONG DOINGS

NATURAL LAW TRANSGRESSIONS (SINS)

- Trespass. Going to someone's else layer which they are using, they own lawfully, without their permission or consent and you are just entering their privacy and their space. You are taking their security in the process. We do have Right to set a side a place for our own layer and to violate it that it is to trespass it.
- Coersion. It is forcing somebody throught the threat of violence to have their will to comply with your will whether they wish it to be the case or not. Making somebody do something that is againts their will.
- Lying. We could add one more lying, It is Theft of truth, or withholding of truth that somebody needs to understand to make accurate informed decisions.

WRONG DOINGS

Every harmful action that a human being is capable of taking is a form of Theft.

Some form of property is always being stolen when a wrong-doing is committed.

Life is a form of property.

Rights are a form of property.

Freedom is a form of property.

WRONG DOINGS

NATURAL LAW TRANSGRESSIONS

Property proper (right) is always stolen when harm is caused, every theft is a theft of some form of property.

- Murder is taking life.
- Assault is taking their life and life space, homeostasis of their body is put into assault.
- Rape is taking away free will to sexually associate with whom they choose to sexually associate.
- Theft is taking physical possession.
- Trespass is taking someone's security.
- Coercion taking somebody's free will, that is not yours to take because it is the gift from the creator, it is not yours to take and if somebody is coercing somebody by telling them, you must do this because I said so, it is Wrong-doing, it is a form of theft.. "You must buy this."
- Lying is taking Truth, not offering the correct information, it is still taking away from them their ability to correct judgement based on availability of information.

These are all forms of theft. On the other hand, if you are not harming somebody else, nobody has Right to stop you from exercising that action.

NATURAL LAW TRANSGRESSIONS

A living being or their property must have been harmed in order for a violation of natural law, or a wrong-doing, to have taken place. Any action which does not cause such harm is a Right.

"No victim, no crime!"

This is a apophatic definition of what Right is. Billions of people do not know it, this is the crox of Natural Law. Until this knowledge is deeply understood and gets propagated to other people, expect things to get worse and worse. And there is no reason for it, no reason to go down that path. We want to choose the way of maximum pain because we do not want to give up thoughts that we are addicted to, just becasue tthe pattern has been there as long as we can remember. We rather go the whole path to the grave to the abyss rather than admiting that we were wrong and give up this way of negative thinking. Bottom line, as long as no no harm is commited there is no right to preventing action and now ten thousands of people are in jail for it things that have never harmed other sentient beings.

NATURAL LAW TRANSGRESSIONS

There is no such thing as "the delegation of a Wrong". In other words, if a specific action is NOT a Right for any individual, then that action cannot be "delegated," "granted," or "licenced" to any other individual or group, and magically called a "right." That action forever remains a Wrong under Natural Law.

This is for those people who believe in government, that we can delegate to a group of people something that is not a right, and all come together and agree upon they now possess these rights. Rights cannot be granted by human beings to other human beings. Everybody is born with the same rights. Because rights do not come from human beings because rights like the laws of nature come from the creator of this. universe. They do not come from human beings. Human beings do not make up what right and wrong are. Right and wrong are inherent to creation and are up to us to discover and recognize what they are and then live in accordance with these principles.

KNOWING RIGHTS

Natural law always holds true regardless of a population's belief systems. This means that it does not matter how many people agree that "a wrong can be turned into a Right", or that "a Right can be turned into "a Wrong." Such things can never be done in Reality. People can only believe that they can claim such reversals and that this will magically make it so. Unfortunately most human beings erroneously believe that it is morally possible for them to create and delegate "rights" which do not exist or to take away rights which do exist.

When in doubt as to whether an action is or is not in harmony with Natural Law, visualize the scenario of a world with only two people. If the behavior is either a Right or a Wrong in that instance, it remains a Right or a Wrong in any sized population, regardless of how many people believe otherwise.

if a Right is a right of one person to do toward another, or if it is a wrong, population is irrelevant. this has nothing to do with what right or wrong are.

TAXATION

Is a taxation of any kind a right or wrong? is it morally acceptable and justifiable?

Taxation is the claim that a group of people who call themselves "government" have been given the "right" to confiscate and arbitrarily-chosen percentage of the product of another individual's labor (a form of Property), whether or not the other agrees to share that product voluntarily. Taxation is enforced by the threat of violence (behaviour resulting in bodily harm) or imprisonment (the taking away of physical freedom of movement) if those from whom the product is being seized attempt to resist the confiscation. This practice is always "justified" ("made into right") by those who claim that such a practice is necessary and required to "uphold the common good". If we define slavery as the involuntary confiscation of 100% of the product of the labor of another human being, we can clearly see that there is no magical percentage to which we could lower this number (other than 0 percent) that would no longer constitute Slavery. If we are being honest with ourselves, Taxation is merely a euphemism for Theft, Violence and Slavery, the practices upon which it is actually based. Since no individual anywhere on Earth has the "right" to claim ownership of the product of another's labor, such behavior can never be "delegated" to a group and called a "right". Therefore, all forms of taxation are always wrong according to Natural Law.

Justified etymologically means "to create a right",
(jus - "right or law"; facejou - "create or make")
= make a right up and conjour into existence.

Slavery makes other work for free and then takes the whole product of their labor.
Taxation is used for services. Well, services that someone does not have the right to refuse. Imagine a situation, I am a computer technician. If I say, I am only one who takes care of your computer and you will give me 200 Eur a year and you can use nobody else's services. Think about that, you may not refuse that I provide a service to your computer. What have I just taken from you? A right to choose, right there it is slavery. Whether you want or do not want I am your technician, I need 200 eur a year and if you will not I will take your computer. It is a master class telling people you have no right to refuse services.

How can you claim that your home belongs to you if you pay a property tax. That someone is saying for what we provide in this community you have to pay. When the society actually do not have property rights and upper class actually owns the property and land and do not allow to live on their property as long as they do not pay tribute to the master class, who can tell me what it is?

Yes, a feudalism, it is every government on Earth. Defacto state of government is feudalism and it is another euphenism for slavery.

If we are being honest with ourselves. We might call it something else, many people prefer not to see it that way, that is what cognitive dissonance is, it is lying to yourself. Gift tax, income tax, all forms are always wrong. Not one individual has the right to perform on another.

PROHIBITION

I am huge in health, purification of the body is the purification of the mind. I am 100 percent for anybody to eat whatever they want to eat. Because the body is their property. I own my body. if the question was asked, "do you own your body?", almost every person they were asked to, almost everybody post for a long time and I could not put it right away. I am using my body right now as a vehicle for expression of consciousness, it is a reason that I own my body.

Prohibition is the claim that a group of people who call themselves "government" have been given the "right" to prevent others from putting any given substance into their own bodies, and if those others refuse to comply with those terms, they will be fined or imprisoned. It should be self-evident that if an individual's body is actually their own property, then that individual always maintains the natural right to decide what will or will not be put into their own property, their body. Understanding this, we can easily see that the claim of the "right" to command that will or will not be put into the body or another person amounts to a claim of ownership upon the other person's body. Therefore, the prohibition is merely a euphemism for Slaver, backed by Violence, regardless of the justifications made by those who claim such practices are "necessary" for the common good." Since no individual anywhere on Earth has the "right" to claim the ownership of another person's body, such behaviour can never be "delegated" to a group, and called a "right". Therefore, all forms of Prohibition are always Wrong according to Natural Law.

PROHIBITION

Because people cannot separate the thing of taking a thing into their body from the action they might subsequently take. Subsequently if somebody would like to blow somebody else they have to be accountable for action they took, that is what personal responsibilities are all about. And these have to be deliniated from each other. We have to separate the right of act to put something into my body and be still responsible for action I take with my body. If I want to drink poison, I have the right to do so, because I own my body. Nobody can tell me what I can and cannot do with my body.

.. "No no no, forget what rights are, it is for a common good."

PERMIT AND LICENCES

Licences and permits are claims that a group of people who call themselves "government" have been given the "right" to prevent others from exercising specific behaviors (even if such behaviours cause no harm to others or their property), unless those others petition (beg) or pay the government for permission to be allowed to exercise those behaviours. This amounts to the claim that Rights are merely "privileges" that may be granted or taken away by government, based upon their preference or discretion. Remembering that the definition of a Right is "any actio which does not cause harm to another living being or their property," there is no such thing as the "right" to stop someone from exercising a Right, since Rights cause no harm. The claim over the rights of another person is called Slavery. Even more so, it is the claim to be God, the claim that the Rights of others flow from you. Therefore, licencing and permits are merely other euphemisms for Slavery, regardless of the justifications made by those who claim such practices are "necessary for the common good". Since no individual anywhere on Earth has the "right" to claim ownership of another person's Rights, such behaviour can never be "delegated" to a group, and called "right." Therefore, all forms of Licensing and Permits are always wrong according to Natural Law.

Permit == permission.

Imagine one person claiming permits to another person, nobody would find that legitimate, no body would find that one person may make that claim to another person, yet we think this other people called "government" have rights that individuals do not have. that is what we think and it is called the mind control. mind control is getting people to accept, some people have rights that other people do not have, that is what it is, always go back to that visualition exercise.

FORCE vs. VIOLENCE

Force and violence are often spoken about as if they are the same, and used interchangeably, when in fact, they are diametrically opposed, polar opposites.

FORCE	VIOLENCE
The capacity to do work or cause physical change; energy, strength, active power	The immoral initiation of physical power to coerce compel or restrain
Action which is in Harmony with Morality and Natural Law because it does not violate others' Rights	Coersive action which is in Opposition to Morality and Natural Law because it involves the violation of others' Rights
Action which one ALWAYS possesses the Right to take (includes defense against Violence)	Actions which one NEVER possesses the Right to take

FORCE vs. VIOLENCE

Teachers in school, when there something happens will say, it does not matter who started it, all that matters is who started it, all that matters. the person who actually conducted violence is the person who struck first, they initiate immoral use of physical behavior therefore when person hits back with physical assault, there is no other wrong doing. Who started it is all that matters and it is very difficult for ego to hear that.

Responding with force is also violance, it is bullshit. You initiated violence, and the other responded with defensive force. I am not saying you have to do that, you also possess the Right no to do that. Both rights exist. It is a free will decision. Personally i think if somebody keeps being quite it is the lower road. I am not a pacifist, if someone starts and initiate Violence, they are asking to be put down.

NATURAL RIGHT TO DEFEND

If a robber with the gun comes to you...

Human being possesses the Natural Right to defend themselves from violence with defensive physical force. A person who is accosted by violence possesses the Right to stop the person who is conducting the violence from continuing to do harm to them, with any amount of force necessary to stop the attack, up to, and including, deadly force.

I say If you want to be nice about it, give a person one verbal warning to stop, say no once, after that it is on, that is it. This is my policy on the street, the problem is here with so called authorities, called "government". Do not want to see it that way and they constantly try to run away from somebody, constantly trying to say no, we own the monopoly on the usage of force and all you may do is wait and be accosted and assaulted until one of us shows up. You know what is that called, it is called a big crock of bullshit and it should not be accepted by anyone who has any common sense. Unfortunately, people are very very well conditioned and they think that this is an example of two wrongs do not make the right but there are no two wrongs committed there. There is one wrong committed and there is a right that is being exercised. Big difference! People have to get clear on this! ———
Does violence become "right" when Government does it?

THE TWO PILLARS OF SPIRITUAL ENLIGHTENMENT

It is not about not taking action and sitting under the tree until you are magically enlightened. Enlightenment means knowing what is going on around you. Enlightenment means knowing what is going on within you. Enlightenment means truly knowing the true objective difference between Right and Wrong and living that in your life on the daily basis. Enlightenment means not aggressing upon your fellow human beings but not agreeing voluntarily to be aggressed by them either. These are two pillars, two dynamics that go hand in hand.

The first pillar is the sacred feminine principle. This has been called a non aggression principle. It is the simple law of do no engage in Violence. Do not steal. That is what spiritual law can be put down to, do not steal from other people. Respect the property, the ownership of others. Do not immorally initiate non-rightful use of physical power to coerce, constrain, or compel the rightful physical behavior or Free Will choice of another sentient being.

THE TWO PILLARS OF SPIRITUAL ENLIGHTENMENT

The second pillar is the sacred masculine principle. This is what the religions of the world (whether they are governments or organized religions, and cultures, New age movement) are seeking to suppress, because religions are right brain modalities, mind control, just like the government takes monopoly on the physical violence, this is left brain imbalance. The second pillar of enlightenment is the sacred masculine principle, also called the self-defense principle. This principle states: Sentient beings have the inherent Right to use Force to defend themselves from Violence conducted upon them by another.

Why are we not rebelling against our slave masters. People magically believe in authority just because they are called government. They are not an enlightenment being without one of these principles.

True real ownership ..

Why is this our current condition?

The reason our species continues to experience a systematic and growing loss of Freedom is because we collectively do not deeply understand Ownership, and we continue to commit and condone THEFT. This is a prison for thieves, that is what Earth is, prison for people that do not respect ownership.

What is ownership?

To own a thing means that, regarding that thing, an individual maintains:

- **RIGHTFUL POSSESSION** == you did not commit any harm to somebody in order to own the thing.
- **CONTROL OF USAGE** == your body, you can control its usage.
- **RESPONSIBILITY**.

Natural law can be essentially reduced to a Single Spiritual Law, the super simplified two word contraessence:

DON'T STEAL

All rights are property rights, stop taking the property of other sentient beings.

CONSCIENCE

Conscience is a common sense, people do not think of conscience as common sense, they do not think of conscience as knowledge. Conscience is not action it is not behavior.

Conscience

from the latin prefix con: "together"

and the latin verb sciere "to know, to understand"

"To know together"

That is why the people do not have common sense, because they cannot define Conscience. The definitive knowledge of the objective difference between Right and Wrong according to Natural Law. This is Common sense.

I am laughing on myself because I have to teach common sense to people.

Exercise of conscience

The free will choice of Right action over Wrong action, once the definitive Knowledge of the objective difference between Right and Wrong according to Natural Law has been acquired to be integrated into a human being in a way as breathing, eating habits ..

THE LAW OF FREEDOM

Freedom and morality are directly proportional.

As morality increases, freedom increases.

As morality declines, freedom declines.

Another way of stating this Law would be to say that the presence of Truth and Morality in the lives of the people of any given society is inversely proportional to the presence of tyrannY and Slavery in that society.

True freedom can never exist in a society that embraces Moral Relativism (the idea that there is no inherent and objective difference between Right and Wrong, so humanity may arbitrarily "create" or "decide" Right or Wrong for themselves).

NATURAL LAW vs. MAN'S LAW (GOVERNMENT)

NATURAL LAW	MAN'S LAW
Based Upon Principles and Truth (Inherent To Creation)	Based Upon Dogmatic Beliefs (Constructs Of Mind)
Harmonized with, due to Knowledge and Understanding	Complied with, due to Fear of Punishment
Universal; exists and applies anywhere in the Universe regardless of location External and Immutable; exists and applies for as long as the Universe exists, and cannot be changed	Differs with location based upon the whim of legislators (Moral relativism) Changes with time based upon whim of legislators (Moral relativism)

NATURAL LAW vs. MAN'S LAW (GOVERNMENT)

If you do not understand Natural Law and act in the ignorance, the result is inescapable, men and women are not creating that result, the universe is, intelligently and dynamically. It is about consequences.

People actually believe that something can be law in one place, and after crossing an imaginary line it is not a law anymore. It is called a cognitive dissonance, holding two contradictory conditions in the mind simultaneously and accepting them both when they are clear contradictions with each other. It is called lying to yourself, let's be honest about what it really is.

So what does this mean for Man's law?

We do not give a damn what is right and wrong but we have so much respect for the law of man, which has nothing to do with Morality, it cannot be further from that. For example, in middle east you can be jailed for years for listening to a certain types of music.

IN LIGHT OF NATURAL LAW

Simple "if then" Logic.

If a particular man-made law is in Harmony with Natural Law, then it follows logically that it is redundant, since it is stating a Truth that is inherent, pre-existing and self-evident. Therefore it is both irrelevant and unnecessary.

If a particular man-made law is in Opposition to Natural law, then it follows logically that it is both False (Incorrect) and Immoral (Harmful), or in other words, Wrong. Therefore it can not be legitimately binding upon anybody.

So we asked people how many people believed that if the law is passed and it restricts the right that you believe you have naturally because that action that it is saying you may not do causes no one else any harm, you have any moral obligation to obey that law until you find the way to change it? And over 2/3 of people said yes. Because these people have the moral right to issue commands and write down laws that can strain you even if that behaviour does not harm anybody and therefore it is natural right, You would still have to find the way to change it. Nonsense. NO one can be legitimately bound to the dictate of men that restrict the natural right. It is called mind control.

EQUALITY (Under Natural Law)

Everyone has the exact same rights. NO one has any more or less Rights than any one else. Also, since Rights are not created by humanity, and since they are the birth-right of humanity, gifted to us by the Creator of the Universe, no human being or group of human beings is actually capable of 'granting" Rights to anyone else, nor is any human being capable of "revoking" Rights from anyone else.

No one can create a Right, it does not exist it has never existed, will never exist. This is an illusory belief system. In reality in truth it can be never done.

EQUALITY (Under Natural Law)

.. Chris Lyspooner

"Government is nothing but men acting in concert. The morality and value of government, like any other association of men, will be no greater and no less than the Morality and value of the men, comprising it. Since the government is nothing but men, its inherent "authority" to act is in no way greater or different than the "authority" to act of individuals in isolation. Government has no "magic powers" or "authority" not possessed by private individuals. Let he who asserts that Government may do that which the individual may not assume the onus of proof and demonstrate his contention."

There is nobody on this planet that can do that, because it is a lie, and it does not exist in reality, it exists only in a sick mind. You have to be sick in your mind, it is a mental illness, it is all that it is and you have to be sick to believe it.

from the latin word gubernare: "to control, " and the latin noun mens: "mind." How do I know that?

What is an election of governor called? it is called a gubernatorial election.

MIND CONTROL

The etymological origin of the English suffix -ment is often debated, yet it is overwhelmingly clear that those who created the English language deliberately chose mens, the latin word for "mind" to mean "the state of " or "the condition of" in direct keeping with the first principle of Natural Law, the Principle of Mentalism, which demonstrates that in order for any particular thing, event, circumstance, state or condition to exist as it currently does in our manifested reality (the Plane of Effects), it must have first existed in the mind (the Plane of Causes)

Government is based on this illusory concept called "Authority."

JURISDICTION is from the Latin noun *juris* "law" and the Latin verb *dicere* "to speak, to say," thus jurisdiction literally means "to say what the law is."

"We gotta make up the law, we are the god, and we make up what they are allowed to do or not to do."

AUTHORITY

Authority is an illusion of a diseased psyche, based entirely in Violence and built upon the erroneous and dogmatic belief that some people are masters who have the moral right to issue commands, and others are Slaves who have a moral obligation to obey the Masters.

It is slavery. it is always immoral and it needs to be ended. The belief in the legitimacy of "Authority" is the belief in the legitimacy of Slavery.

.. "I do not care what these people believe, if they understand it or not, they are advocating the legitimacy of slavery. That is not my belief. That is eternal truth. You believe in these concepts you are supporter of Slavery. You are under deep mind control or a sick psychopatic absolute piece of garbage."

.. "I am not here to serve human beings, make friends or be liked I am here to serve the Truth. Whether it will be accepted, it is not up to me, I am doing what I am charged to do by Creation, whether it is accepted it is somebody else's karma not mine."

Ultimately, "Authority" is the idea that man can become God and through Jurisdiction dictate the Law.

All government institutions are actually temples. Dark occultists think they gonna turn Natural Law upside down and they gonna rule in hell. It is a religion. The concept of Authority is a religion, a false religion.

from the latin verb religare " to tie back; to hold back; to thwart from forward progress; to bind."

False religion is a system of Control based in unchallenged dogmatic Belief which holds back the progress of consciousness.

There is a positive connotations of Religion, to reunite with, Truth, no legitimacy of slavery, then we would be practicing true Religion. We have to stop making our Religion the Truth and stop the Truth our Religion.

ONE TRUE DIVIDE

people will say it is a separation talk, we are all one, no we are not, there is one true divide that exists in reality.

The only One True Divide that separates humanity into distinct types of individuals. The criteria for this divide is whether or not an individual believes in "Authority" and therefore believes that there is legitimacy to Slavery.

The division is the people that know that Slavery cannot be legitimate and the people who believe it can. Everything else is divide and conquer technique, race, religion sexuality, income, religious belief systems, these are all divide and conquer techniques. There is one real difference and people call this Statists and Anarchists.

Statism is a brilliant idea that we give a small group of people the right to kidnap, imprison, harass, steal from, and kill people, so that we can be protected from people who kidnap, harass and steal and kill people.

.. Jesus " I am an Anarchists, most of his followers are statist."

ONE TRUE DIVIDE

People do not actually know who real Anarchists are. They do not have a clue. Officially, everywhere are just these fake anarchists who want to destroy the property and hope that they can make some good. They are communists in the sky, when you go down to it they do not know what Anarchy is at all. They want to destroy property. Bunch of left brain clowns having no understanding of Natural Law. These people are a joke.

Including fake ass christians who somehow believe that they follow the teachings of Christ and they believe in government, they believe in financial institutions, they believe in organized religion, these are the three things that killed Christ. If you even accept the historicity of the event, who was Christ having the basic conflict with, the organized religious order and controlling religious order. He was pissing them off and they were already on vain. The old world order was on the way out, the new world order was on the way in at that time. He got himself in the real trouble when he went against the financial institutions in the temple. And he flogged their ass. He took off the switch on them. Not someone who has never got angry or accepted evil and said it was just an experience, none of it mattered, took up the switch and beat their ass. The police of the day, the Roman Empire police brought him to his Death. Roman centurians, the government, the standing army that day. I do not care if you accept it as a historical fact or a spiritual allegory, I cannot care less.

All that matters is teaching, he was waging spiritual war against these entrenched mind control religious establishment of this day. And people will see it that way, they are not interested in real teachings, they just want to identify themselves with the title, christians. Going to church on sunday does not make you a christian. No more than going to the synagogue would align you with the true teachings of the Torach. They are those people who claim these faiths in name only when they do not understand the meaning of the word freedom at all.

ONE TRUE DIVIDE

A statist is an individual who erroneously believes that there is such a thing as "Authority" vested in certain human beings, magically giving them the "right to rule" over other people. This "Authority" means that certain people, who we call "Government," have the "moral right" to issue commands to those whom they rule (those under their "jurisdiction"), and that their "subjects" (slaves) have a "moral obligation" to obey the arbitrary dictates ("laws") set by their Masters. Most simply put, a statist is someone who believes in the legitimacy of Slavery.

Conversely, an anarchist is one who knows that there could never be legitimacy to "Authority" or "Government" because those terms are simply euphemism for Violence and Slavery, which are always immoral and in opposition to Natural Law.

NO MASTERS AND NO SLAVES

From the greek prefix an- "without; the absence of" and the greek noun archon "master; ruler."

Anarchy does not mean "without rules." It literally means "without rulers; without masters."

.. "I mean one who externally rules another."

No master no slaves and people will associate it with Freedom.

Anarchy and people will associate it with chaos which is the exact opposite.

They have deliberately obfuscated the meaning of the word through the mind control technique called endless repetition. They got enough people to call freedom chaos, think about that. There is enough people to believe that the absence of the states of slavery means chaos instead of freedom, it is almost incomprehensible, the mind job done on these species.

I prefer to call Anarchy an-archony == the absence of archons (Statists = archonists; Anarchists = anarchonists). And that is the true divide in Consciousness that has to be bridged (legitimacy to slavery).

Chaos must be viewed as a teacher. It teaches us, through Apophasis what not to do. If you say I do not want to be burnt, they are requirements to be taken .. This is the situation we are still in, humanity is a small child who does not want to be burn and simutenously insist that it wants to put their hand on a hot plate and say it does not want to be burnt.

CONTROL SYSTEM

The Control and Slavery system is about limitation of Free Will through the destruction of possibility. The old world order used to be religion and priest kings, they put themselves into position of god basically in the pyramid of power. "We make the law, you obey."

All they have done is that they take the concept of a singular ruler and they converted it to the concept that there is a ruling class called government that gets to make up what we may or may not do and there are up here at the top of the pyramid = somewhat oligarchy. No priests kings, now it is institutions, authority.

True freedom includes infinite possibility, which, by definition, includes the possibility of Chaos. This possibility must be embraced without Fear if we are to be truly Free. If we live in fear of Chaos, it can only get you more Chaos, because it is based in fear. The fear of the possibility of Chaos is the fear of True Freedom.

IMAGINATION

If you cannot work out the system without slavery, it means you have lost your imagination. DEATH OF IMAGINATION.

Imagination is the powerful ability of the human mind to envision a different state or condition than the one which is already manifested. Imagination must be present in order to create a different state of existence than the one currently being experienced, because according to the Principle of Mentalism, for a different state to manifest in the physical world (Plane of Effects), it must first exist within the mind (the Plane of Causality). If the imagination is stifled or destroyed (total mind control), any positive change to our state of existence becomes completely impossible. This is where many people are at, putting the mind permanently in cage.

FEAR OF FREEDOM

Through their fear of the possibility of Chaos (True Freedom), most people advocate the legitimacy and continuance of "Authority" and Government, and are therefore actually advocating the legitimacy and continuance of Violence and Slavery.

Those who believe that the "Authority" is necessary and that it must continue, have actually been duped into believing that human SLAVERY is necessary and must continue to prevent Chaos.

STATISM (The most dangerous religion (belief in government) in the world.

Violence and Slavery can not prevent Chaos.

Because Violence and Slavery are Chaos, we are already in the state of Chaos. We are in it now surprise surprise.

ORDER FOLLOWERS

There are the people who keep the existence of slavery in place, not the ruling class, not the masters, not the so called elite of no one but the bottom of the trash can. no one wants to hear that and they would hate you for saying that.

Following orders means doing what you are told to do, without judging for yourself whether or not the action you are being ordered to carry out is Right or Wrong.

You are not sitting down there and thinking, "Should I do that, is that moral?" Order followers say: "Yes sir."

If an individual is following orders, that individual can not be exercising Conscience, since, by definition, exercising Conscience means that one is willfully choosing for themselves Right Action over Wrong Action.

ORDER FOLLOWERS

Exercising conscience is contradiction by definition to following orders.

These people, Elite, Sun Gods could not beat us militarily so they took us through the school system, they said well, lets send our ideologs over there and get to the minds of our children. World wide socialism is that there is not such thing as private property, state owns everything, rights do not exist, everybody is a serve again, neo-feudalism, from left it is communism, from right it is national-socialism. It is still feudalism, it is euphenism for slavery.

If I am acting solely on what somebody else tells me to do, it is in itself the act of evil, no morality in it at all. It is not a virtue, it is evil. There is no such thing as any possible moral following orders.

"I was just following orders" is never a valid excuse or "justification" for immoral, criminal behavior, and this lame attempt to abdicate personal responsibility should never be accepted as a valid excuse for such behavior.

JUSTIFICATION

From the latin noun jus: "right; law" and the Latin verb facere: "to make; to create."

To "create" a Right.

.. "I was just doing my job, shutting down the demonstration, I just hit people with the sound cannyon." It is nothing more but justification, you are a criminal and your behavior and activity are criminal and they are making it a Law. It is a lie, saying I just did it, I just followed orders. Most people actually believe there is legitimacy to such behavior.

.. Mohatma Gandhi

"You assist an evil system most effectively by obeying its orders and decrees. An evil system never deserves such allegiance. Allegiance to it means parttaking of the evil. A good person will resist an evil system with his or her whole soul. "

MORAL CULPABILITY

The determination of who is ultimately at fault, or deserving of blame, for the commission of actions which resulted in harm or loss to others.

culpable

From the latin noun culpa: "fault; blame."

"It is a legitimate and correct concept for following orders .." Get over THIS New Age Bullshit, that there is no blame for doing crime .

Who did it? Order followers are always in form of police.

Why do not they call it a politicians state, a judge state, a banker state? You know why because none of these people are ultimately responsible for bringing that condition to the manifestation through their behavior, they are Order Givers. Order followers carry out their commands and through their behavior make that condition manifest in reality, that is why it is called a police state. It is always created by police, because they do not want to take responsibility, think for themselves and know the difference between Right and Wrong for themselves like an adult. Instead I want to be a child who obey daddy, because I have daddy issues, that is what it is really about.

WHO IS LYING AND WHO IS TELLING THE TRUTH

who is more morally culpable (both are) ? Order Follower or Order Giver?
Who is lying and who is telling the truth (middle east bombing) ?

If your children are at bombs, that is a problem. If it is the child of somebody else there is no need to care and engage in Freedom .. Orders Givers just signed the piece of paper in suites, they are just speaking to the ear of somebody else.

And this is a very painful truth. The Order Follower always bears more moral culpability than the Order Giver, because the Order-Follower is the one who actually performed the action, and in taking such action, actually brought the resultant harm into physical manifestation. Order-Following is the pathway to every form of Evil and chaos in our world. It should never be seen as a "virtua" by anyone who considers themselves a moral human being. Order-followers have ultimately been personally responsible and morally culpable for every form of Slavery and every single Totalitarian regime that has existed upon the face of the Earth.

RESPONSIBILITY vs. ABDICATION

Why dont these people take responsiblity for themselves?

An individual's Personal Responsibility to choose Right Action over Wrong action for themselves is always their own. One can only claim that they are "abdicatinG" Personal responsibility for such choice to someone else. It can never actually be done, in Reality. More simply put, an individual is always responsible for thier own actions.

NO "COP-OUTS," stop making excusess or justifications fom your criminal behavior!

..

"Accept responsibility for yourself and your actions, thoughts and words. You alone make choices. You alone are answerable to the consequences of your behavior. The feeble excuse that your boss required it, the establishment expected it, holds no truth or justification.

..

"What is the point of having Principles if you allow others to dictate your behavior? At the end of the day, you will judge your performance and the contribution you have made to Creation. It will not be based on what another expected of you, or what you did because you felt trapped."

Those who follow orders do not have Principles and there is a reason they do not have principles, they hate themselves, they are in psychological self-loathing and there is a reason why they are in this state of mind.

ABILITY TO RESPOND

Most people erroneously believe that they can "hand over" their Natural Law Right to defend themselves to another individual, group or entity. In making such a false claim, they have attempted to "abdicate" a responsibility which always belongs to them, and can never be "given away."

Ultimately, they do not serve to protect people, they serve to protect ruling class , because they are liars.

.. Benjamin Franklin

"Those who would give up Essential Liberty to purchase a little temporary safety, deserve neither, and will lose both."

.. Mark Passio

"Enjoy your safe slavery. I take an absolute canibal on every street corner, and I take my chances. This is chidish and not wanting to grow up and become adults/"

SELF-RESPECT vs. SELF-LOATHING

Self-loathing is the underlying psychological condition that causes people to attempt to abdicate their own Personal Responsibility to exercise Conscience, and fall into patterns of Order-Following and Justification. Just as it is not possible for an Order-follower to truly be exercising Conscience, it is not possible for an order-follower to truly love themselves.

"I have suffered therefore I shall cause suffering."

Self-Loathing is created when an earlier TRAUMA has been suppressed and buried into the Subconscious Mind, instead of being confronted, dealt with, and healed. Such trauma could take the form of feelings of Inadequacy, whether real, suggested, or imagined.

SELF-RESPECT vs. SELF-LOATHING

It is a hard work to get from that mindset, I was in. I had to do that shadow work, for years of more suffering and pain and admit thousands and thousands and thousands of times I was wrong, I was wrong, I was wrong... I was so depressed, I could not get from bed for days... Because of what I was still doing in this mindset.

Self-respect.

From the latin prefix re: "again," and the latin verb spectare: "to look at."

"To take another look at oneself."

You cannot give somebody something that you do not have. Nobody can give the respect to somebody else unless they develop it inwardly. Self-respect has to come first.

Only Self-respect can heal Self-loathing, and therefore help to put an Order-Follower on the Path To Conscience.

THE LOST WORD

The lost-word is a concept from Esoteric Freemasonry which represents a state of Consciousness that has been largely "lost" to the majority of human beings. In order to speak the "Lost Word", human being must work upon themselves in order to achieve a state of equilibrium, or Balance, between the left and right brain hemispheres. In such a state of Consciousness, the being has come to know the Self, as well as the working operations of Natural Law, and in doing so, has come to understand the objective difference between Right and Wrong, or, as they are referred to in Freemasonry, "Light" and "Darkness" respectively.

In the enlightened state of Consciousness generated through the Knowledge of Natural Law, a human being is finally able to speak the "lost word", which is "NO". NO is the word of all power. Only when we say NO to those who would claim to be our owners, those who claim that it is they who will decide which Rights we have or do not have, do we stop externalizing our Power to anyone outside of ourselves and, in doing so, reclaim ALL of our Rights. Sadly, very, very few people in our world have the knowledge, care and courage that is required to do this. This is why this All-Powerful Word is considered "Lost".

Reclaiming all of our rights and property that has been taken without right.

Know your rights.
Those who do not know will never say no.

THE GREAT WORK

(Teaching natural law to others)

Educare in latin: "to leave out from; leave one out of ignorance."

A quantum shift in human consciousness is required for humanity to become free of its self-imposed state of Slavery. Unfortunately, this Great Change is not an automatic process, nor is it guaranteed to happen at all. Whether or not it will occur is a function of the human Will to learn the Truth and teach it to others. This involves enormous effort, dedication, and persistence.

Shift happens? Maybe... Maybe not
In alchemy there is a saying, Labore and constantia, The work and constancy.

REQUIREMENTS OF A QUANTUM SHIFT

Quantum is derived from Latin noun quantum: "amount." In order to tip the Scales of Truth and Justice back to balance, a certain AMOUNT of people actually need to be DOING the Great Work of helping others to receive the Truth. It can be viewed as CRITICAL MASS.

Individual behavior, choices, either based in Harmony or Opposition to Natural Law, combine in energy and effect, and, in the AGGREGATE, influence the quality of the manifested shared human experience. This dynamic acts as a perfect expression of the Principle of Correspondence: "As above, so below, as below so above". Decisively contrary to the "New age view, in order for a Quantum Shift to take place, NUMBERS are REQUIRED.

We are collectively creating our shared experience that we are all undergoing. Not each individual creates the reality we are all experiencing, yeah you create a microcosmic experience of how you experience your life, whether you experience self-inflicting suffering or not.

WHAT IS THE TRUE GREAT WORK?

The true great work can only be performed after one has already realized the Truth regarding Natural Law and brought oneself into alignment with it, The true great work is what comes next.

The true great work is the arduous task of influencing others to go through that very same process. It is to help them to realize that, in supporting and condoning the legitimacy of Authority and Government (Man's law), that they have actually been supporting and condoning the legitimacy of SLAVERY, and that they were immoral for having done so.

This is hard work. Because people want to believe what they want to believe. They do not want to be true what they do not want to be true. They filter their perception through their lenses.

In short, what the True Great Work comes down to is to get people to ABANDON THEIR RELIGIONS - the false and dogmatic BELIEFS which hold back the progress of Consciousness by impeding the reception of Truth and Natural Law.

WHAT IS THE TRUE GREAT WORK?

.. Carl Jung

"One does not become Enlightened by imagining figures of light, but by making the darkness conscious. The latter procedure, however, is disagreeable, and therefore, not popular. "

.. making the darkness conscious, not wishing it to become, not meditating upon it but by making it by act of will. The answer is to actually become a teacher. I do not want to do this because I want to have a lot of students or to earn money or become popular. I am here to follow truth and share it with others.

.. Thomas Jefferson

"Educate and inform the whole mass of the People. That is the only sure reliance for the preservation of our Liberty "

.. Donald S. McAlvaney (in his book: "Toward the New World Order").

"In every declining civilization there is a small remnant of people who adhere to the Right against the Wrong, who recognize the difference between Good and Evil and who will take an active stand for the former and against the latter, who can still think and discern, and who will courageously take a stand against the political, social, moral, and spiritual decay of their day. "

WHAT IS THE TRUE GREAT WORK?

.. Jesus (in Gospel of Mathew)

" Do not suppose that I have come to bring Peace to the Earth. I did not come to bring Peace, but a sword. For I have come to turn a man against his father, a daughter against her mother, a daughter in law against her mother in law. A man's enemies will be the members of his own household. Anyone who loves his father or mother more than me is not worthy of me. Anyone who loves son or daughters more than me is not worthy of me. And anyone who does not take his cross and follow me is not worthy of me. Whoever finds his life will lose it, and whoever loses his life for my sake will find it.

.. Instead of the word Jesus, put there the word Truth.

It does not mean to continue and excuse evil indefinitely while it destroys you. He means, that you have to give people you are close with and have an affinity with more chances than you give somebody you do not know. But ultimately, he says, the spiritual war gets hot, and if people, even if they are around us do not align themselves with the Right, are ultimately those who continue to propagate and advocate the evil in the world. They are real spiritual enemies.

WHAT WILL THIS BATTLE REALLY BE AGAINST

- Egos hardened into "negative knowledge."
- Emotional Mind Control.
- Fear of True Freedom.

INNER DEAMONS

NEGATIVE "KNOWLEDGE"

Negative knowledge is the concept that many already know: "I do not prefer to look at something because I already know it."

The greatest enemy may not be Ignorance, but rather the ILLUSION OF KNOWLEDGE.

People really have not started to look at Truth for themselves, so not only they are zero there, but they are attached to all that stuff that is not true, that puts them into negative. They have to do the Hard Work to get back to zero, to have a clean slate.

And these people who are in this stage are largely over-intellectual, they are left brain, left brain prison folks.

"if it is unpleasant, I do not want to hear it, I do not want to see it, and I certainly do not want to tell others about it! I will just ignore it and it will go away. "

What happens when you do it with a sickness or a problem, does it get better? It gets worse.

People do not like hearing the truth because they do not like the way it is being delivered.

I will not stop delivering the truth the way I deliver, this is my style.

EMOTIONAL MIND CONTROL

.. Mark Passio

"In the ancient tradition, they talked about, reserve the meat for the strong men and furnish the milk for babies. I am not here to convert the babies, I do not have the patience for that, I do not have energy for that. I think he is fear mongering and making of it a bigger deal than it is. "

"I am not interested in the content." They say the way that he said it offended me, I did not prefer the way he said it and the tone he took. Well, does that have any damm thing to do about whether the information was true or not? The people who are in this mind state are under emotional mind control. They believe you can determine the informational content based on the way you feel and this is the logical fallacy, it cannot be done. You cannot think with the emotions. I do not tell you to disregard the emotions. They are very important, they are compass to morality in our lives, they are compass through which we set up our behavior. But you cannot determine, analyze or breakdown what is true or not and make a filtering system just based on how the information makes you feel when you heard it. You have to actually think with two hemispheres.

.. Anonymous

We literally believe that we are in the right to ignore a message of Truth if the messenger is somehow distasteful to us. I would argue this to be a symptom of total madness."

THE FEAR OF FREEDOM

Where does it come from?

- Refusal to own personal responsibility (symptoms are just leaves in the tree not the root of the problem)
- Self-loathing due to lack of Self-respect (nested traumatic issues == child person,
- Abandonment Issues (Most people went through the deeply seeded parental abandonment issues trauma).

Until we deal with these psychological issues deeply rooted, you cannot deal with other things.

The problem is that it has always been like that, since we have been on this planet. We have never psychologically grown up. We have undergone a cosmic abandonment.

WHAT WILL BE REQUIRED ON THE PART OF THOSE PERFORMING THE GREAT WORK

- Knowledge of the real enemy.
- Service to truth (not to humanity), to principles.
- Courage, persistence and real world skills.

KNOW THE REAL ENEMY

The priest class is not a real enemy, it is an insignificant part of population and they cannot control humanity with our compliance. They deeply care about what they do. However, they do not have the real sun, they have the black sun.

The real enemy is sleeping masses. This is it.

The real enlightened ones are the ones who listen, or see this presentation.

Free will is always in existence and this is a matter of changing our thoughts, emotion, and actions. This is our own personal responsibility that cannot be put away or destroyed.

Truth can never be destroyed. But Humanity can be destroyed when we refuse to act in service to Truth, as her Defenders. It is possible for us to co-create a positive outcome, but this can only be accomplished if we care enough to learn the Truth ourselves, and then develop the Courage to continuously speak it to others.

The voice of evil, mind control takes the control, Truth currently does not have a voice in the physical domain. Until our voice of Truth becomes a non-stop chorus like lies and deception has been for millenia, do not expect a change.

.. Samunel Adams

"The liberties of our country are worth defending at all hazards. it is our duty to defend them against all attacks. It will bring a mark of everlasting infamy on the present generation if we should suffer them to be wrested from us by violence without a struggle, or to be cheated out of them by the artifices of designing men. "

.. Samuel Adams

"If you love wealth greater than liberty, the tranquility of servitude greater than the animating contest for Freedom, go home from us in peace. We seek not your counsel, nor your arms. Crouch down and lick the hand that feeds you. May your chains set lightly upon you, and may posterity forget that you were our countrymen."

.. Mark Passio "If your alligience is not to the Truth and the Freedom, I do not want to know you. You desere to be forgotten. "

We are the vehicles by which truth operates in the world. Therefore, it is our shared responsibility at this time to help to awaken others by continuously speaking the Truth, even if we feel burdened by this task, and even if it makes all of those involved uncomfortable.

It is not about feeling comfort, or staying complicit, it is about shaking things up. Making people feel uncomfortable. Who told people that the truth will make you warm and fuzzy inside? Why do people believe that? Who ever said it was a case?

Truth is horrible and yet it needs to be embraced as a lover. In all its horror.

.. Bertolt Brecht

"Truth is belligerent. Truth is, by its very nature, at war with the forces of falsehood and deceit."

PERSISTENCE

.. Thomas Paine

"These are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of his country. But he that stands it now, deserves the love and thanks of man and woman. Tyranny, like Hell, is not easily conquered. Yet we have this consolation with us: that the harder the conflict, the more glorious the triumph. "

.. Budha

"There are only two mistakes one can ever make on the Path to Truth: not starting; and not going all the way."

It is not about saying, this is it, I know what I need, and I do not want to look at anything else. I want to make my camp here. I do not need to go any further. I do not want to see the peak. Until we would be fully enlightened and go to the peak, do not expect things to change.

REQUIRED SKILLS

You need skills to get this message to masses of people through to the new media. Use technology for powerful and enlightening way.

- Organization.
- Communication.
- Graphic Design.
- Presentation.
- Audio.
- Video.
- Webside development.
- Networking, marketing and promotion.

We need to become a new media that is dedicated to truth, we are the answer , we are the Illuminators.

.. A lady who inspired Mark Passio

"What are you doing with the knowledge you have, making presentation, videos, audio? What keeps you think, you have the Right to do nothing? You are niagara falls in the water balloon. You have to put outlet to the knowledge and put it out to let more to come in. Get up from your ass and do something about it."

.. R. Buckminster Fuller

The dark ages still reign over all Humanity, and the depth and persistence of this domination are only now becoming clear. This Dark ages prison has no steel bars, chains, or locks. Instead, it is locked by mis-orientation. Caught up in a plethora of conditioned reflexes and driven by the human Ego, both warden and prisoner attempt meagerly to compete with God. All are intractably skeptical of what they do not understand. We are powerfully imprisoned in these Dark Ages simply by the terms in which we have been conditioned to think.

We actually live in post-apocalyptic times, the apocalypse has already occurred and we are living after it.

From the greek prefix apo- "away from; off, removed from" and the Greek verb calyptein: "to cover; to conceal," hence Apocalypse literally means "to reveal or "to take out of hiding."

To take the cover off, take something out of hiding. The veil has been lifted, the Truth is out, it has been deoculted and now it needs to be spread.

"Great revealing deoculting the truth"

Humanity needs to get to what I refer to as a cosmic apology. "I was wrong" is the most powerful phrase that can be said by a human being. The second is I love you :) It is about the internal metamorphosis. It is the phrase of power.

Apology

From the greek apo- "away from; off; removed from" and the Greek noun logos: "word," hence apology literally means "to go away from the word" or "to give back the word."

"Let me take back what I have just said."

The greek noun Logos: "word" comes from the Greek verb lego: "to speak, to say." The latin noun lex: "law" is derived from this Greek verb. God, not Man, is the Logos, the Author of Law. Humanity's work is to learn to listen to God's Word (Truth) and align its behavior to God's Law (Natural law).

Who put the laws into manifestation? The creator did.

Natural law is only the boundary conditions of the manifested reality of the physical Universe.

Humanity must make a cosmic apology, by giving the Word (Authorship of Law) back to God, its rightful owner, and collectively aligning its behaviour with Natural Law. This is accomplished when we open our minds and hearts to Truth, and when we start saying the Lost Word, "No" to Evil.

Authority = Author-ity = Writers = sounds like Righters = individuals that decide what Right or Wrong is and write it down. They make things into a Right.

in a nutshell, the dark occult are people who believe that can author rights, make rights, that they are God.

In the beginning was the word and the word was God. God is law. That what the force of creation is, it is Natural Law.

It is not saying remain silent and do not ever use your voice. This is symbolic allegory of the apology.

Do you know what else does the middle G between the compass and square in the Freemasonoc picture representi?

Apollo-G, the Sun, the Sight, the Generative principle, CARE. Apollo -in greek mystic traditions means the Sun, the God, the Light.

Leads to:

- Freedom
- Peace
- Prosperity
- Survival
- Evolutionary Progress

Which one do we choose?

I cannot tell, each individual has to decide for themselves and it will be played in the aggregate.

Leads to:

- Control
- Enslavement
- War
- Evolutionary Stagnation
- Extinction

Which one do we choose?

I cannot tell, each individual has to decide for themselves and it will be played in the aggregate.

QUOTATIONS

.. Thomas Jefferson

"A free people claim their rights as derived from the Laws of Nature, and not as the gift of their magistrates."

.. John Locke

"The Natural Liberty of men is to be free from any superior power on Earth, and not to be under the will or legislative authority of Man, but only to have the Law of Nature for his rule."

.. Francis Bacon

"Nature, to be commanded, must first be obeyed."

.. Mark Passio "If we want the forces of cosmos to be on our side, we have to learn and adhere to the Principles of Natural Law. If we do not align our behavior to that, the Nature will stand against us."

.. Alfred Adler

"There is a Law that Man should love his neighbor as himself. In a few hundred years it should be as natural to Mankind as breathing as breathing, or the upright gait. But if he does not learn it, he must perish."

ACCEPTING THE KEY?

.. Mark Passio

"I think we could do it faster if we accept the key. Do we climb the road of Consciousness by our dedication, effort and action? If we do it we balance masculine and feminine forces within each one of us."

Recognition of sovereignty

Natural Law is in deep connection to cabalistic traditions. Will of Creation and what Creation ultimately want to manifest in this reality. The Justice Card. Based on the Latin word Jus meaning "Right; Law," balance of Pillars, sword of Truth in one hand and the scales of Truth in the other. Alignment to Natural Law, to Truth, to Manifestation, and to Order.

Only then we can see what Universe is meaning for us, if we break our chains. We can see the differences, and changes. We can scarcely even imagine, what the world will be on the other side of this transformation. Will it come or not? It may and it may not.

The answer in Latin LEX REX, meaning "The Law is the King:".
